October 2026 Public Sector Sample List

Learning Places Scotland is the annual gathering for everyone involved in creating, managing and improving Scotland's learning environments. Bringing together professionals from across early years, schools, colleges, universities, councils, Scottish Government and the wider built environment, the event provides a place to share experience, explore current projects and hear different perspectives from across the learning estate.

Across the day, attendees can:

- Hear from those involved in shaping and delivering learning environments across Scotland
- Explore current priorities including sustainability, inclusion, decarbonisation, digital learning and estate strategy
- Learn from projects and approaches already being put into practice
- Meet professionals from across education, Government and the built environment
- Discover products, services and technologies across the Learning Places Scotland and EdTech Scotland exhibitions
