Lighting for  
a Living

# WELCOME

As a UK manufacturer we have one of the widest lighting ranges across:

## Drapers Hall

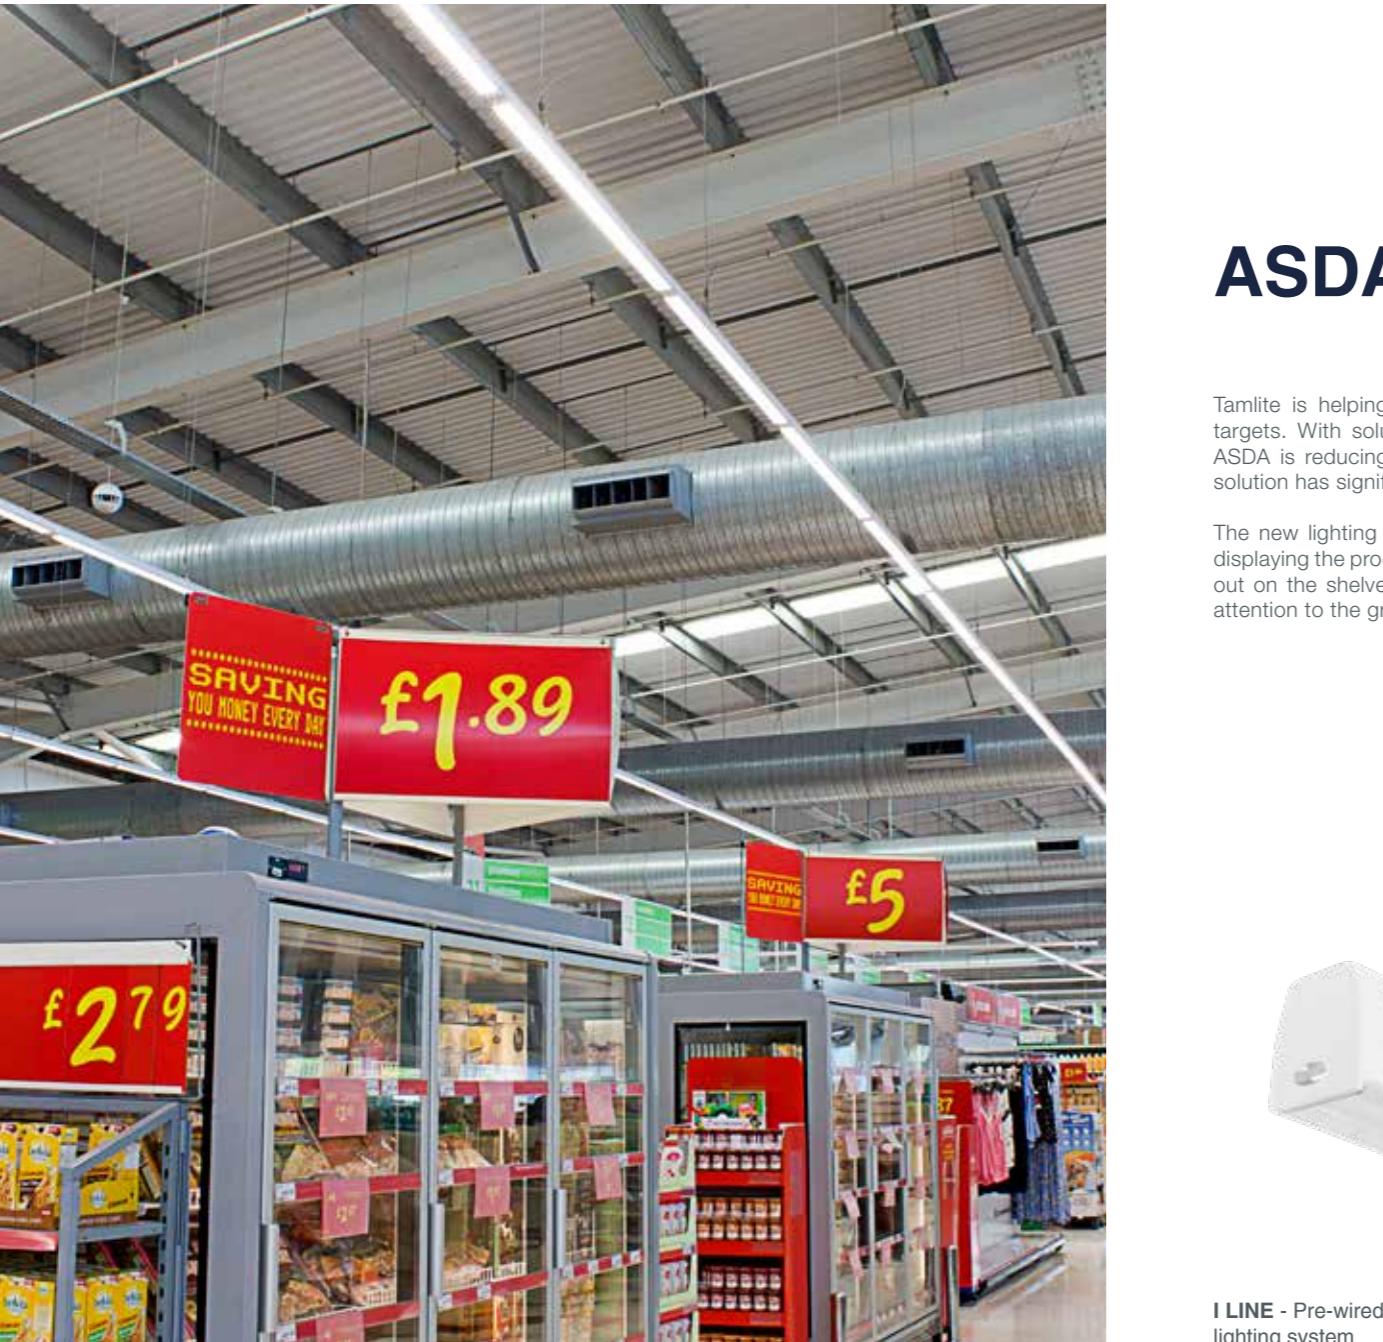

Drapers Hall has a history stretching back to the 15th century, and has received a lighting overhaul. Fully dimmable Tamlite Lighting solutions were installed, adjustable from a centralised control system.

The fittings were discreet, and directed the light towards the magnificent paintings and architecture throughout the hall.

MICRO LED XL - High performance LED batten

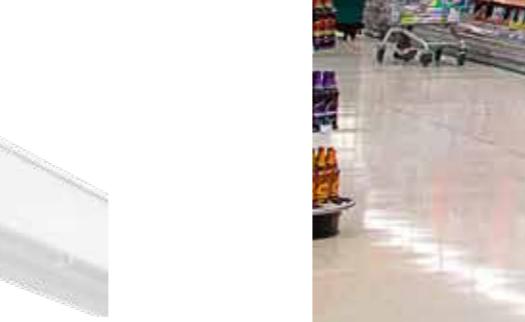

## ASDA

Tamlite is helping ASDA meet their ambitious energy reduction targets. With solutions rolled out nationwide, supermarket giant ASDA is reducing the energy footprint of its stores. The lighting solution has significantly lowered energy consumption.

The new lighting system also modernised the feel of the stores, displaying the products as fresh and appealing. The products stand out on the shelves, with tailored beam angles drawing customer attention to the groceries around the store.

I LINE - Pre-wired LED continuous lighting system

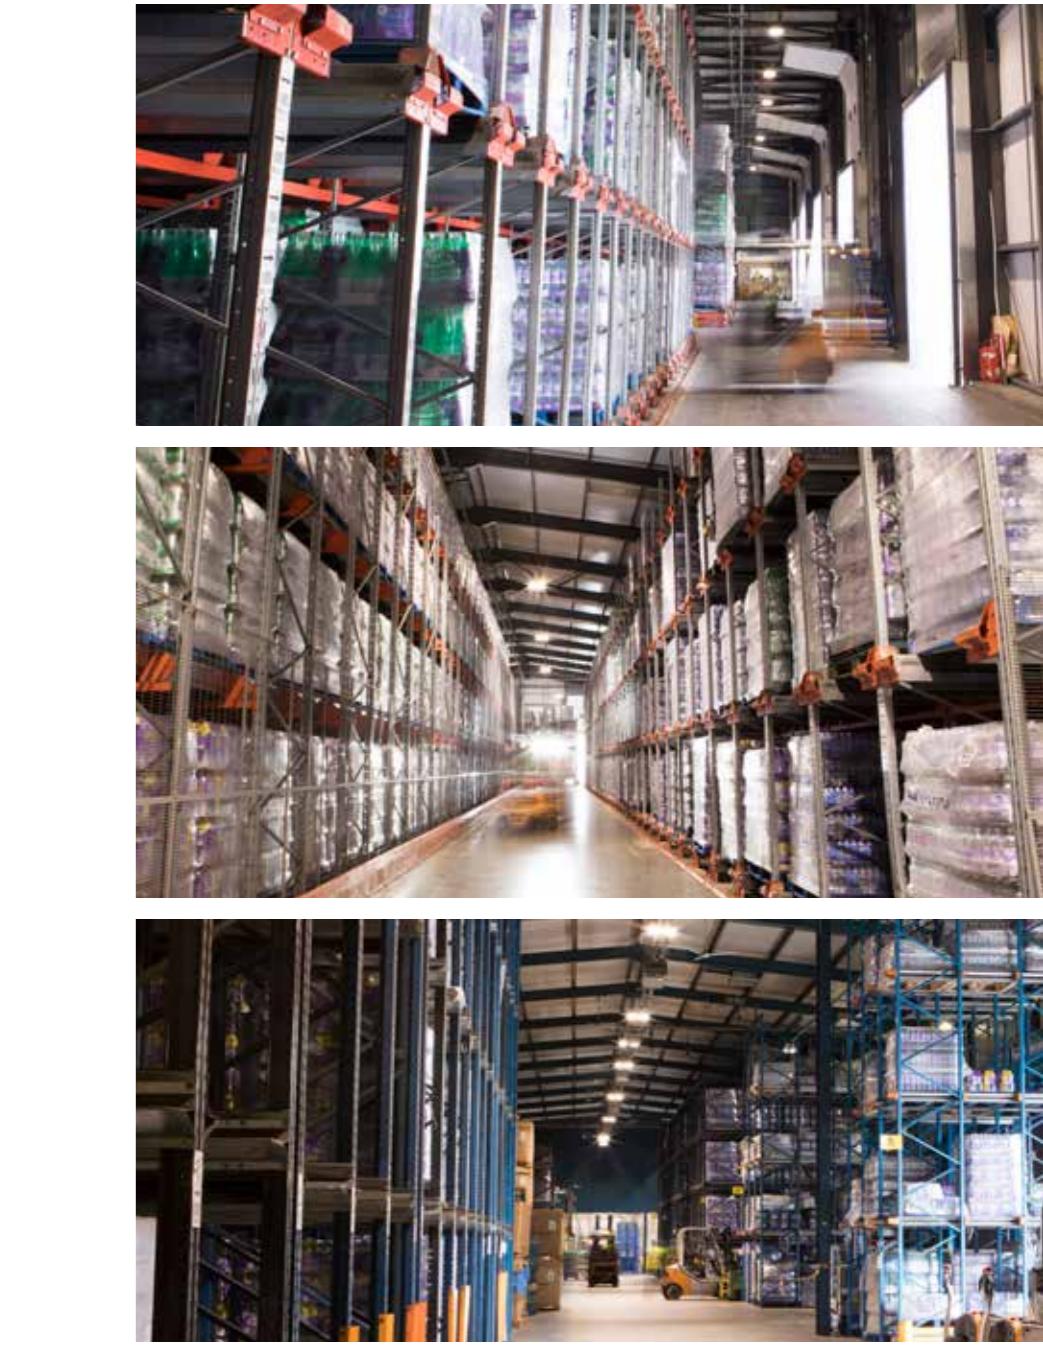

## Highland Spring

Established in 1979, Highland Spring Group operates and maintains a number of factories and warehouses. When redeveloping the lighting system at its warehouse in Perthshire, Scotland, energy efficient Tamlite Lighting solutions were chosen.

In a warehouse, it is vital that the area is fully illuminated, to improve safety around heavy machinery, without dazzling workers. In racking areas, forklift operators will be looking upwards in the aisles. With Tamlite lighting solutions, they can do so with minimal glare, to avoid costly accidents.

EXPO - High output LED Low bay/  
high bay

PLAZA - Post top LED lantern

## Holiday Inn Express

Holiday Inn Express Portsmouth North is a modern 150-bedroom hotel. A busy residence with many customers passing through its doors, Holiday Inn chose Tamlite Lighting luminaires for its site.

The outdoor car park was transformed from a dark, shadowy area to a safe and welcoming environment.

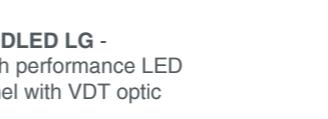

## AAH Pharmaceuticals

AAH is the largest British pharmaceutical wholesaler, operating from modern distribution centres as part of Celsis UK, the British division of McKesson Europe. AAH delivers over 15 million items per week to more than 14,000 pharmacies and organisations, including LloydsPharmacy.

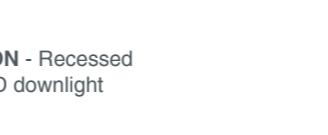

AAH installed Tamlite Lighting products across their offices, communal spaces, reception areas, and the mail room, creating significant energy savings throughout the site.

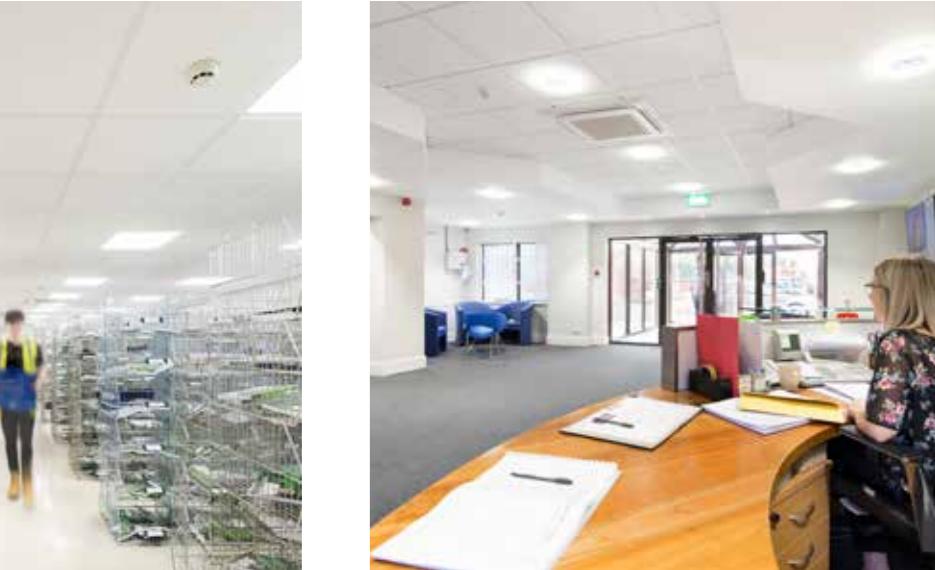

**HORIZON L** - Recessed LED module with indirect/direct output

**MODLED LG** - High performance LED panel with VDT optic

**IKON** - Recessed LED downlight

# Newcastle United Football Club

St James' Park, home of Newcastle United FC, is one of the largest football stadiums in the country. Tamlite Lighting products were installed in the car parks and corporate rooms at the stadium, to provide the perfect experience for guests and visitors.

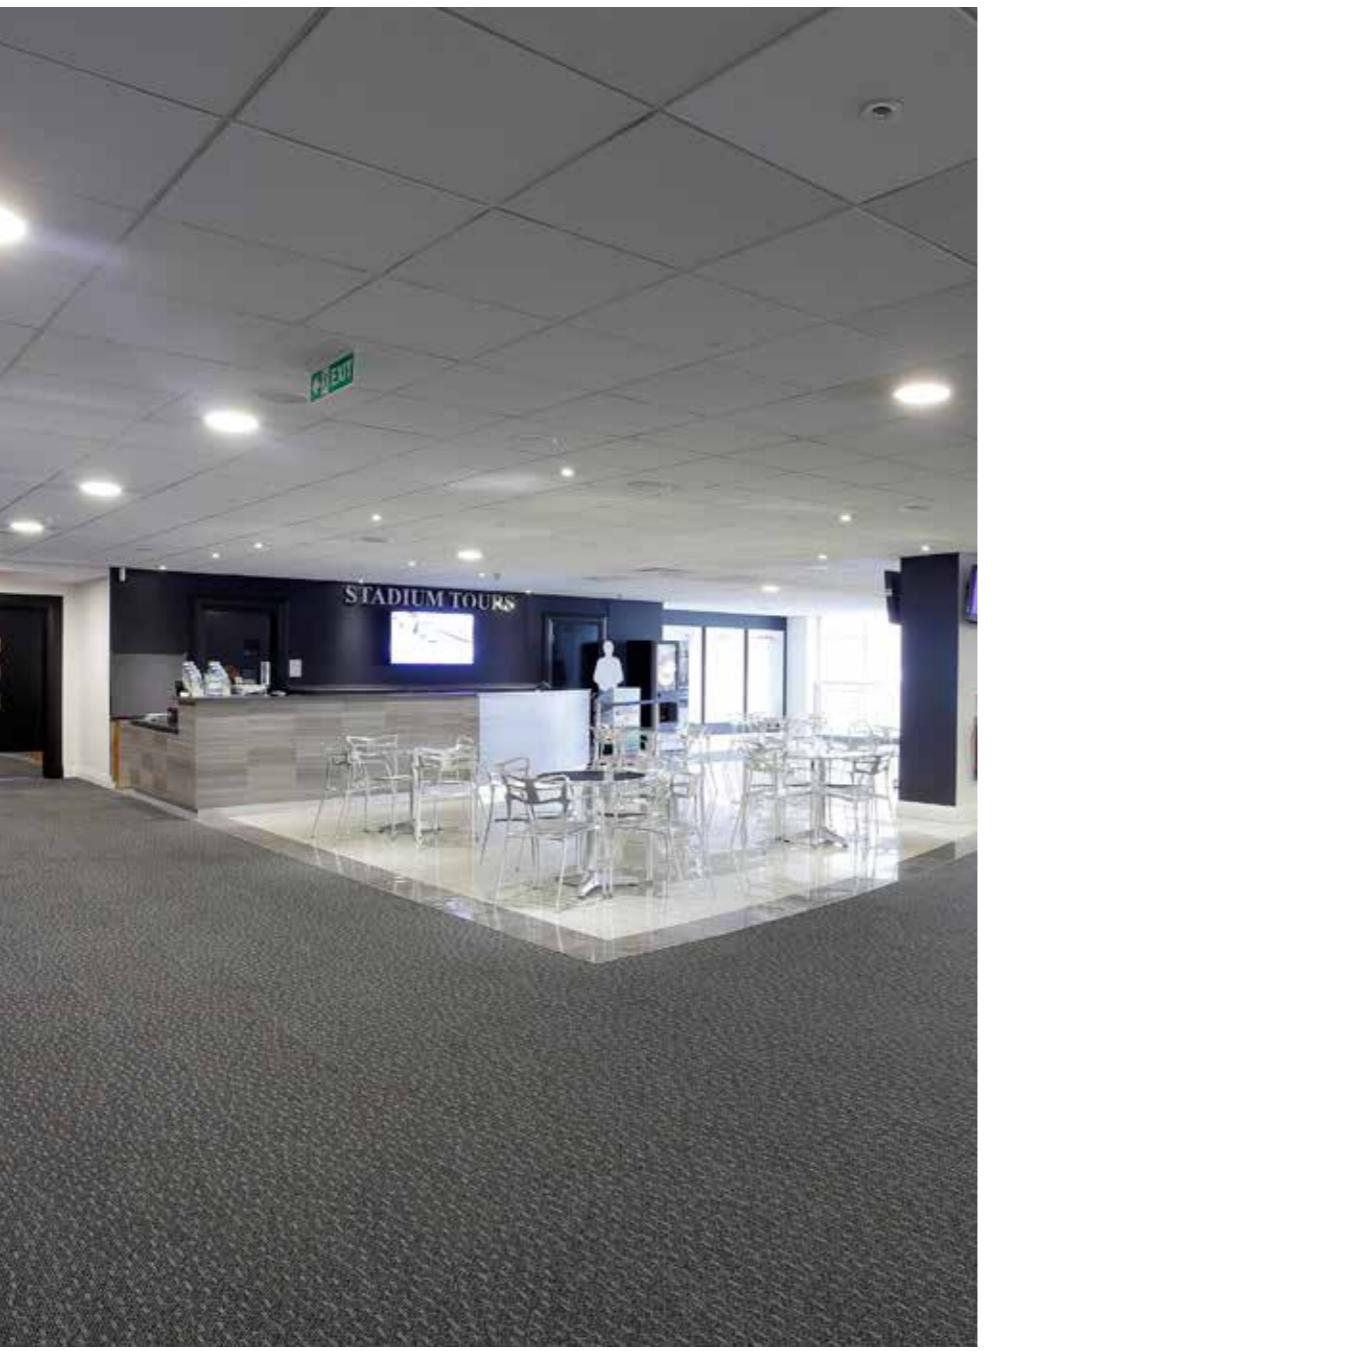

Eddie Rutherford, Newcastle United stadium manager, says, "Areas where the new lighting has been installed actually look like they have been redecorated because the light quality is so much better than before."

**XTREME** - IP65 LED weatherproof,  
polycarbonate luminaire

**IKON** - Recessed  
LED downlight

## RMB Toyota

Toyota is one of the most recognisable car brands in the world. RMB Toyota in Darlington needed a lighting system in its brand-new showroom, and Tamlite Lighting solutions were installed to provide a memorable customer experience. Spotlights gave the cars an air of prestige, by creating a visually striking lighting design.

**IKON** - Recessed LED downlight

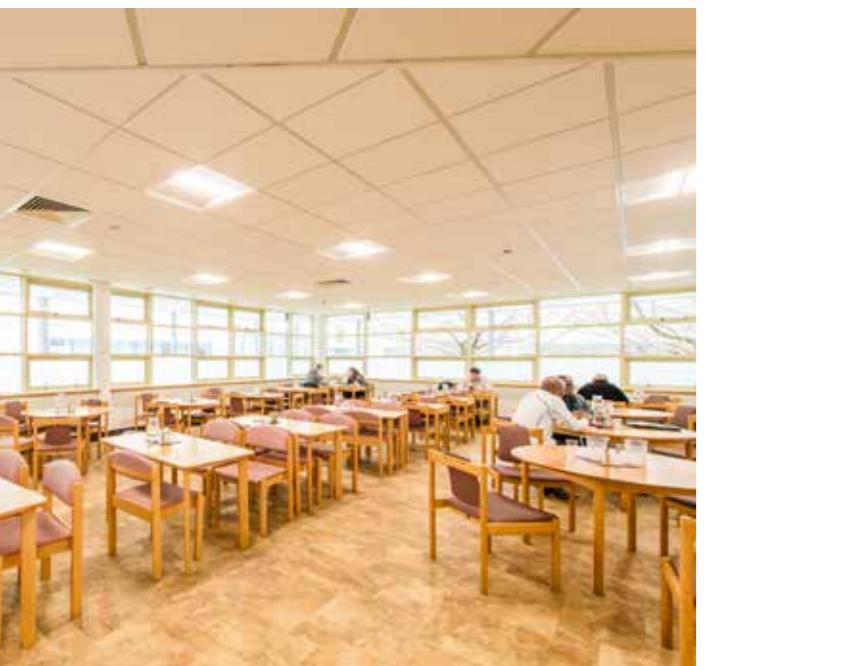

**TRIO** - Mains 3 circuit track system

**TS SPOT** - High output LED spotlight

# Princess Elizabeth Hospital

Part of Healthcare Group Guernsey, Princess Elizabeth Hospital is a mainstay of healthcare provision in the Channel Islands. Tamlite Lighting solutions were installed throughout the hospital, creating the perfect environment to aid patient recovery and allow staff to assess their patients without intrusive light.

Comfortable, welcoming lighting in corridor areas link the wards, while laboratory lighting ensures that technicians remain focused and concentrate for longer.

IKON - Recessed LED downlight

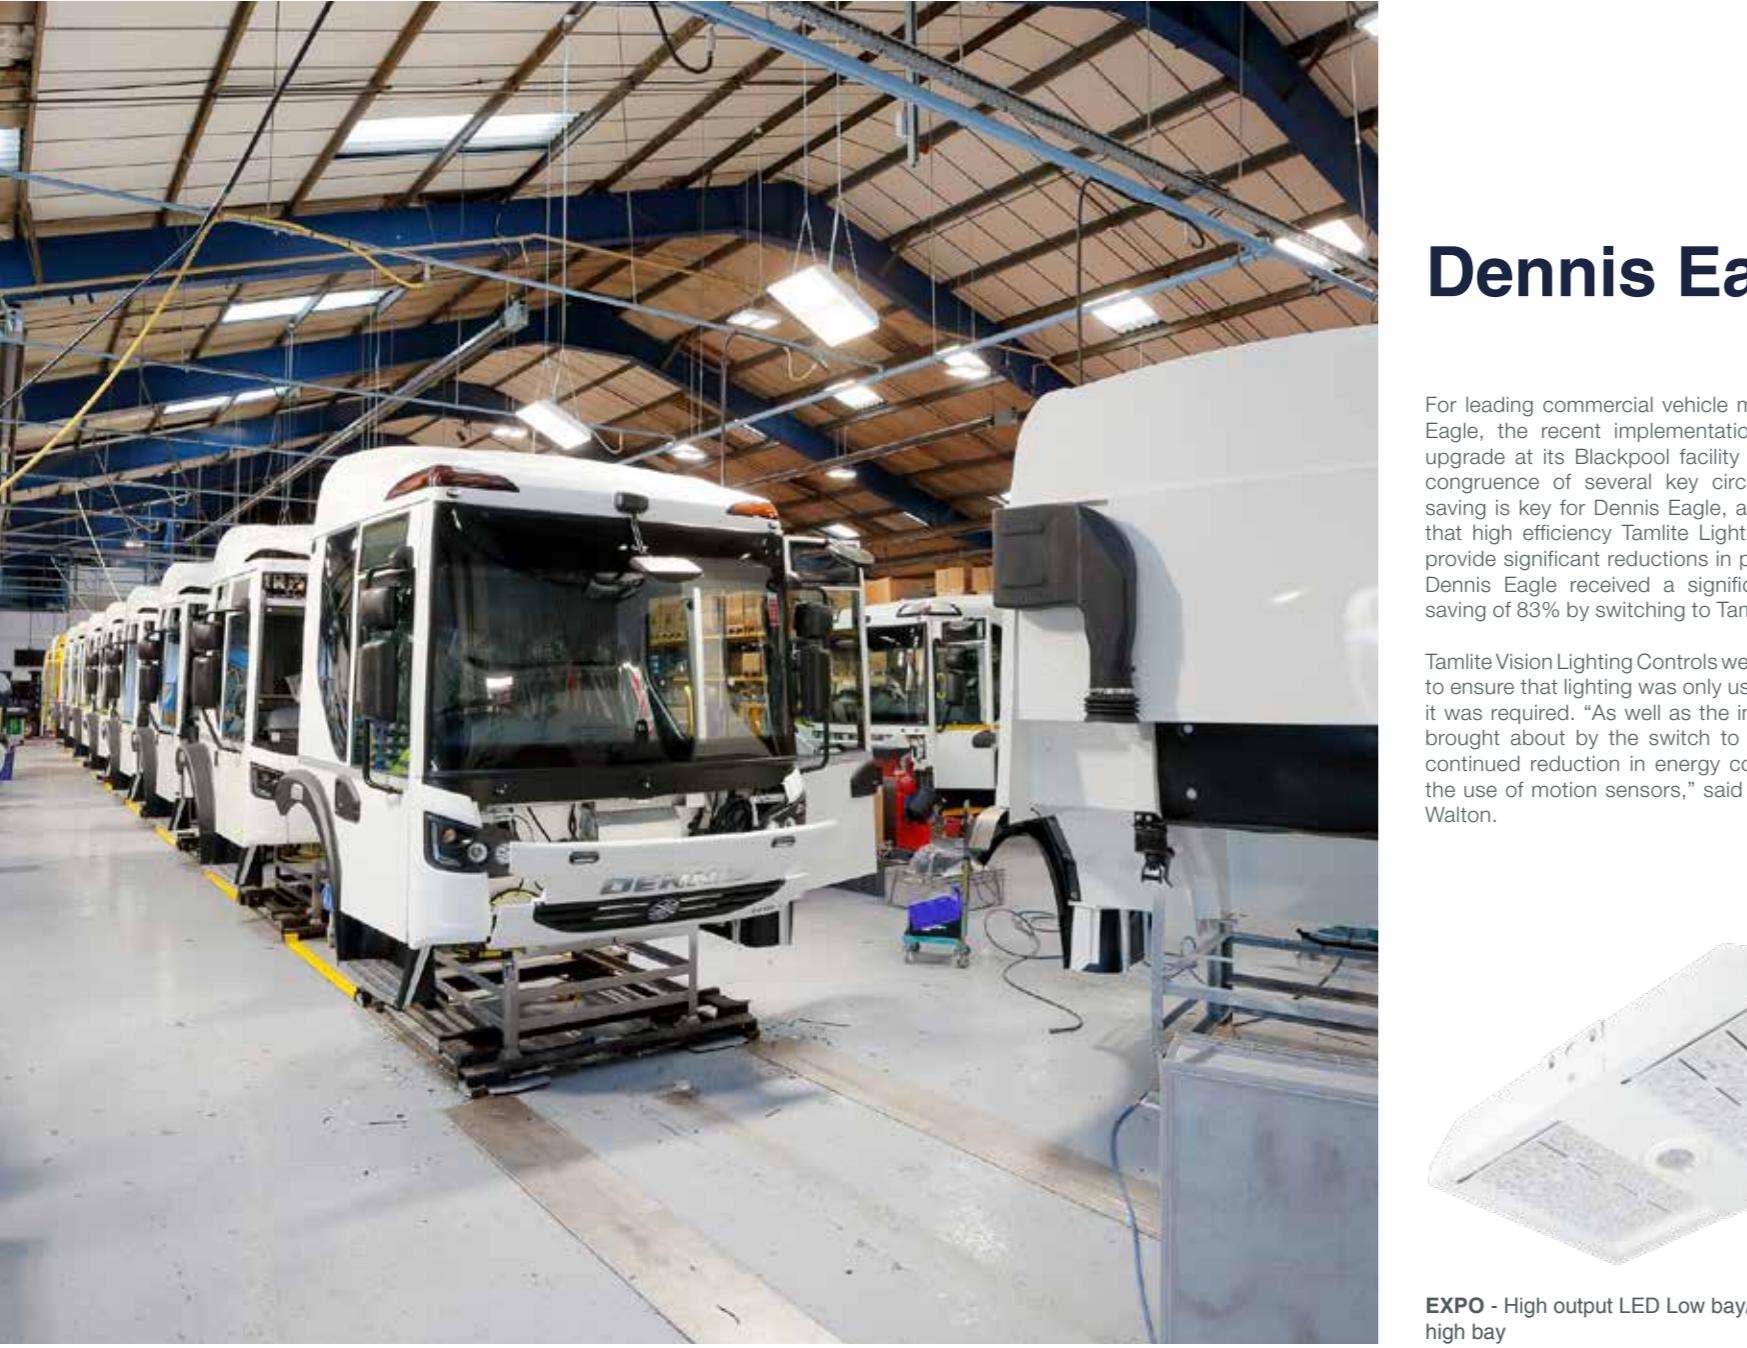

i5 - High output recessed adjustable LED downlight

MODLED - Low energy LED recessed modular panel

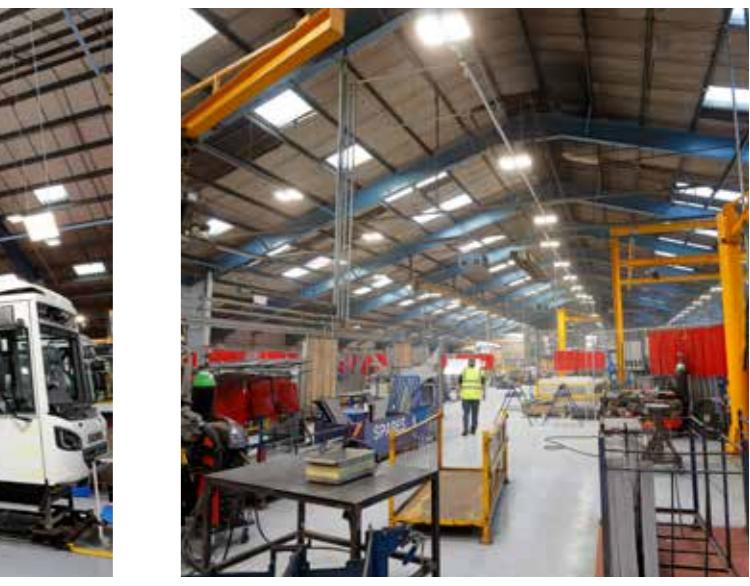

## Dennis Eagle

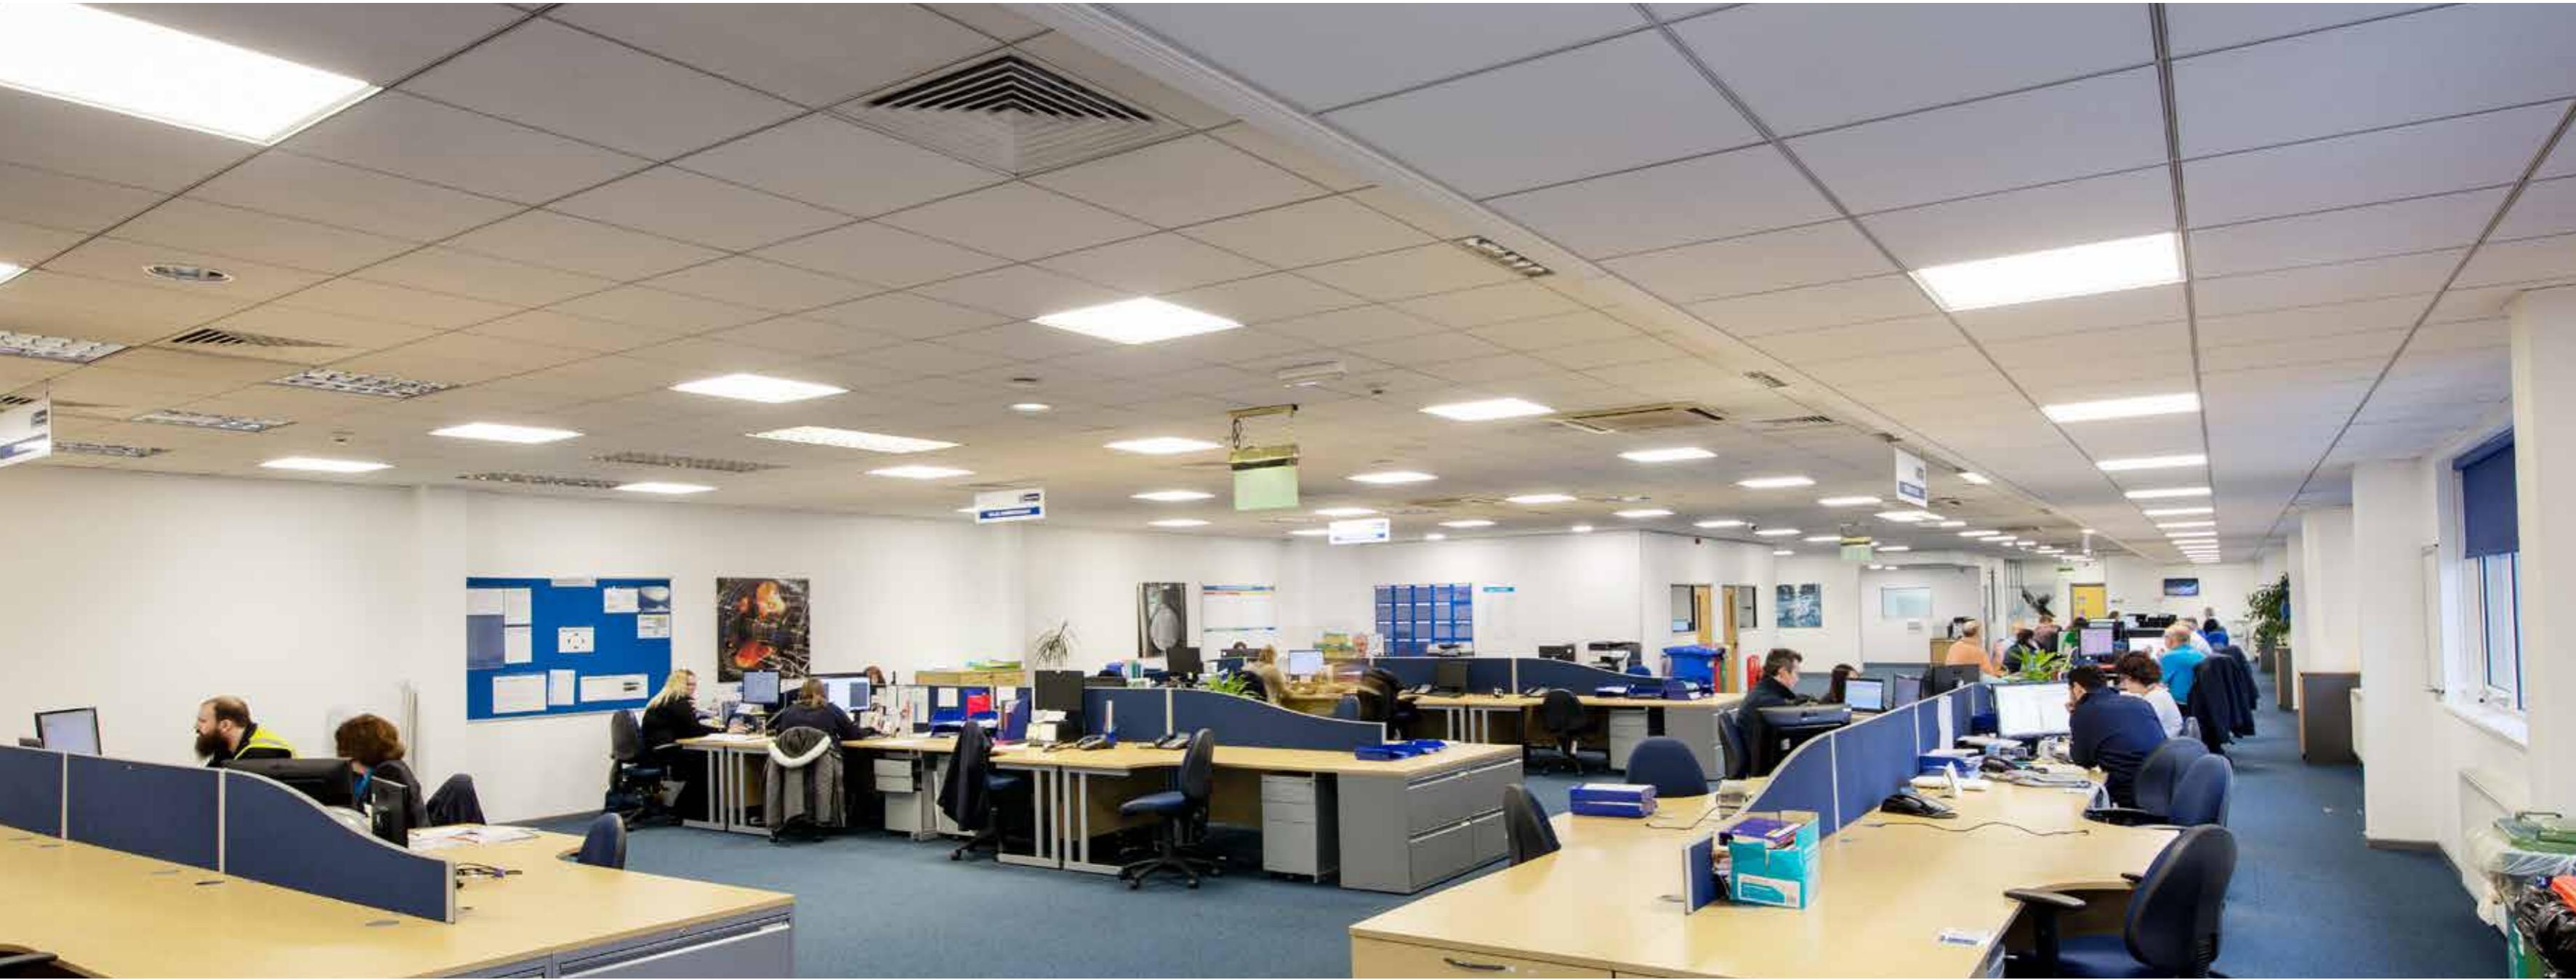

For leading commercial vehicle manufacturer Dennis Eagle, the recent implementation of a full lighting upgrade at its Blackpool facility was the result of a congruence of several key circumstances. Energy saving is key for Dennis Eagle, and they determined that high efficiency Tamlite Lighting solutions would provide significant reductions in power consumption. Dennis Eagle received a significant annual energy saving of 83% by switching to Tamlite LED luminaires.

Tamlite Vision Lighting Controls were also implemented to ensure that lighting was only used when and where it was required. "As well as the initial energy savings brought about by the switch to LED, we will see a continued reduction in energy consumption through the use of motion sensors," said Dennis Eagles' Neil Walton.

**EXPO** - High output LED Low bay/  
high bay

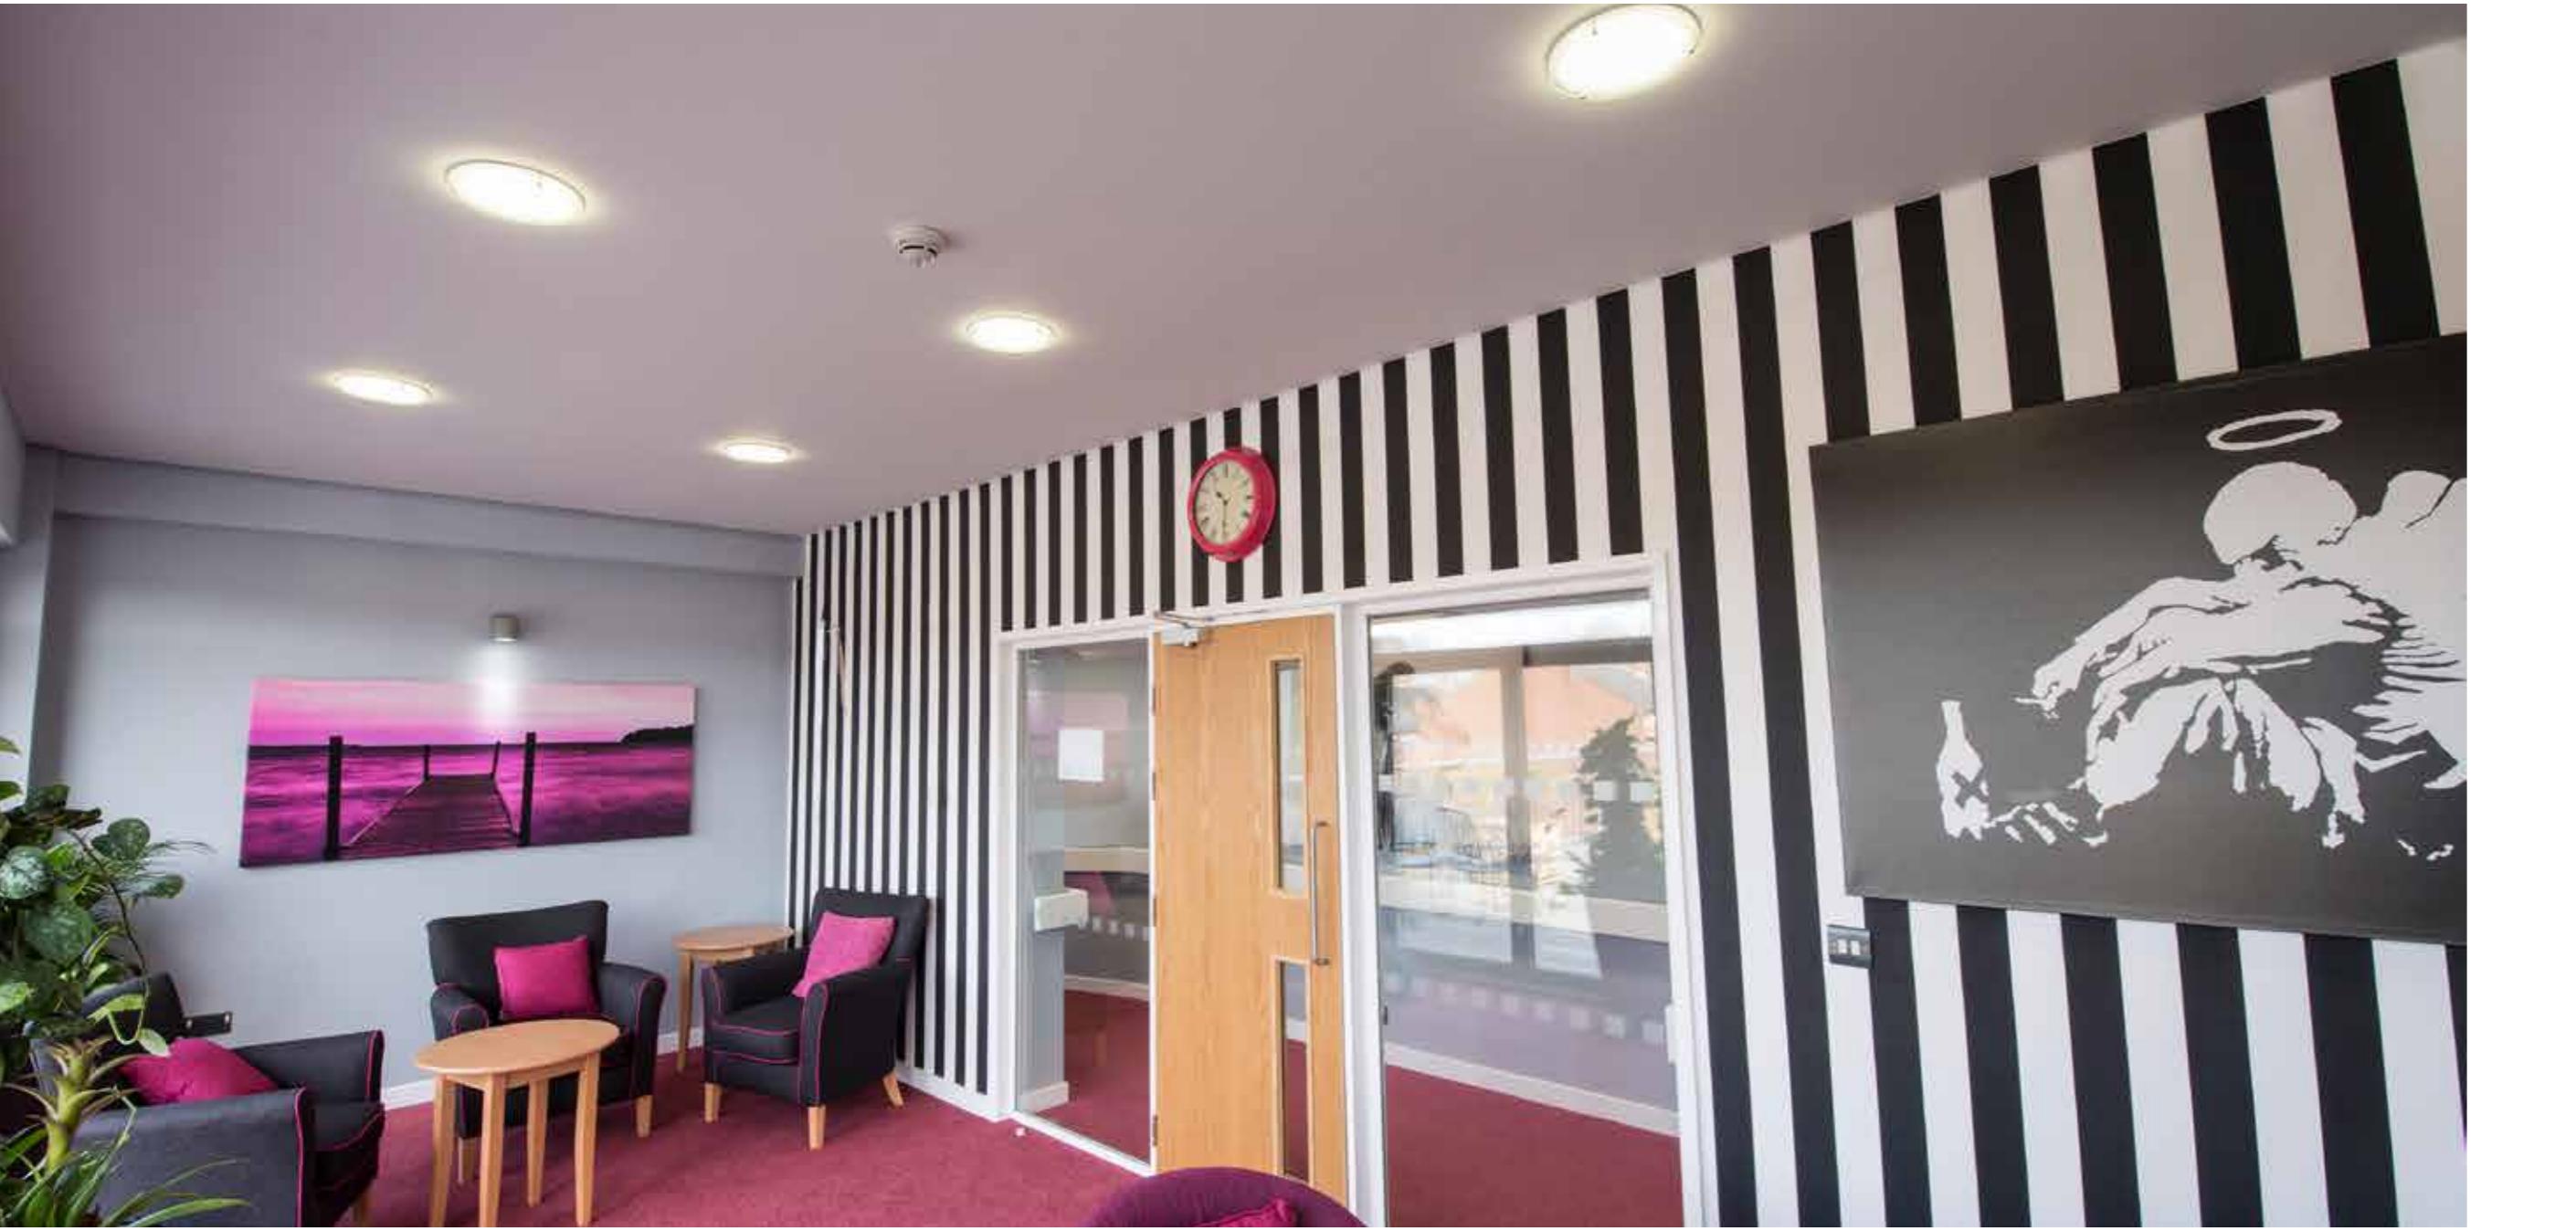

## Thyssenkrupp

Delivering a range of products for the aerospace industry, Thyssenkrupp is one of the world's most prominent diversified industrial groups.

Tamlite Lighting luminaires were supplied to the office areas, to provide low glare illumination. These solutions provide sufficient light without being intrusive, creating the perfect office environment.

**MODLED LG** - High performance LED panel with VDT optic

## Nottingham City Homes

The lighting provision at Garfield Court and Courtney Gardens has been extensively revamped as part of Nottingham City Homes' ongoing modernisation of its independent living facilities. The motivation for the latest upgrade was installing a range of emergency lighting solutions at the site.

The fittings were supplied with integral emergency options, to provide sufficient lighting even in the event of a power cut. Emergency lighting is crucial, to allowing room occupants to vacate the building when mains power is lost.

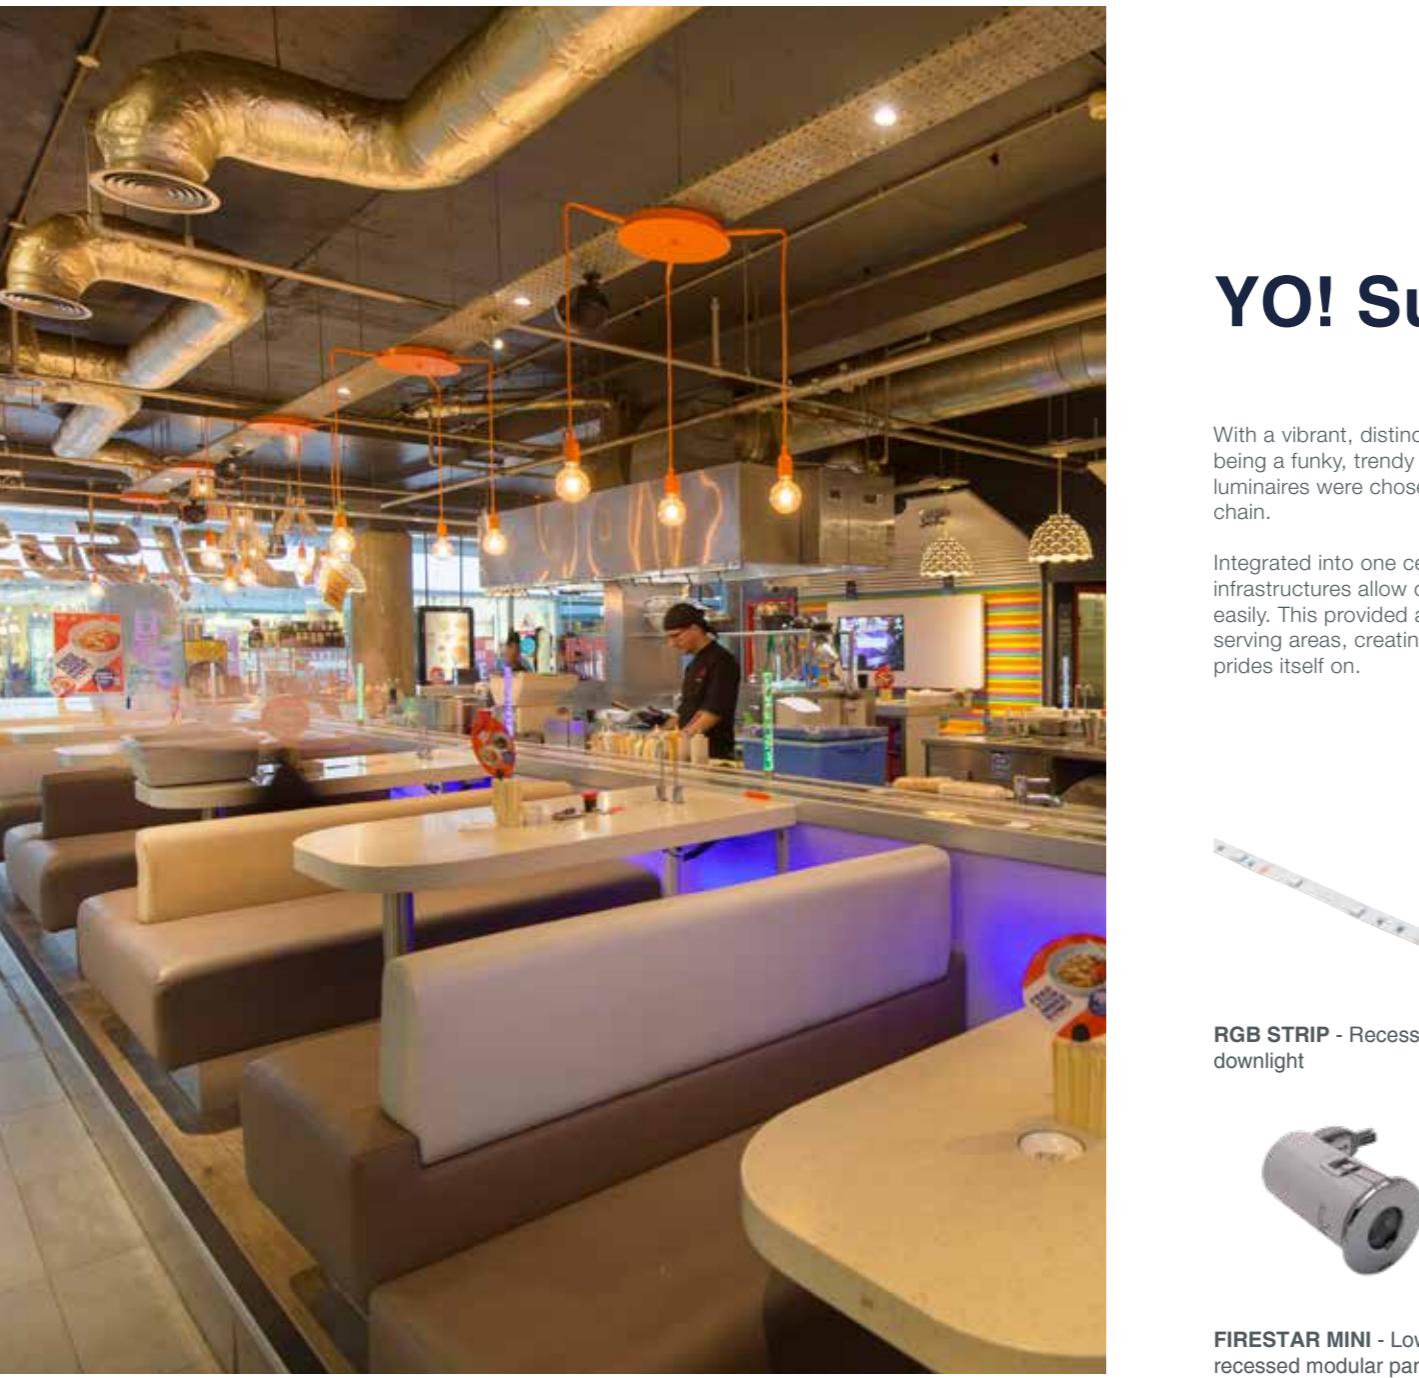

**EMLED** - Recessed emergency LED downlight

**ELEGANCE** - Decorative circular bulkhead with LED array

## YO! Sushi

With a vibrant, distinctive atmosphere, YO! Sushi is renowned for being a funky, trendy restaurant. High efficiency Tamlite Lighting luminaires were chosen by the popular Japanese food restaurant chain.

Integrated into one centralised controller, the new lighting infrastructures allow colour changes to be made quickly and easily. This provided a vivid lighting design at the tables and serving areas, creating the colourful personality that YO! Sushi prides itself on.

**RGB STRIP** - Recessed LED downlight

**FIRESTAR MINI** - Low energy LED recessed modular panel

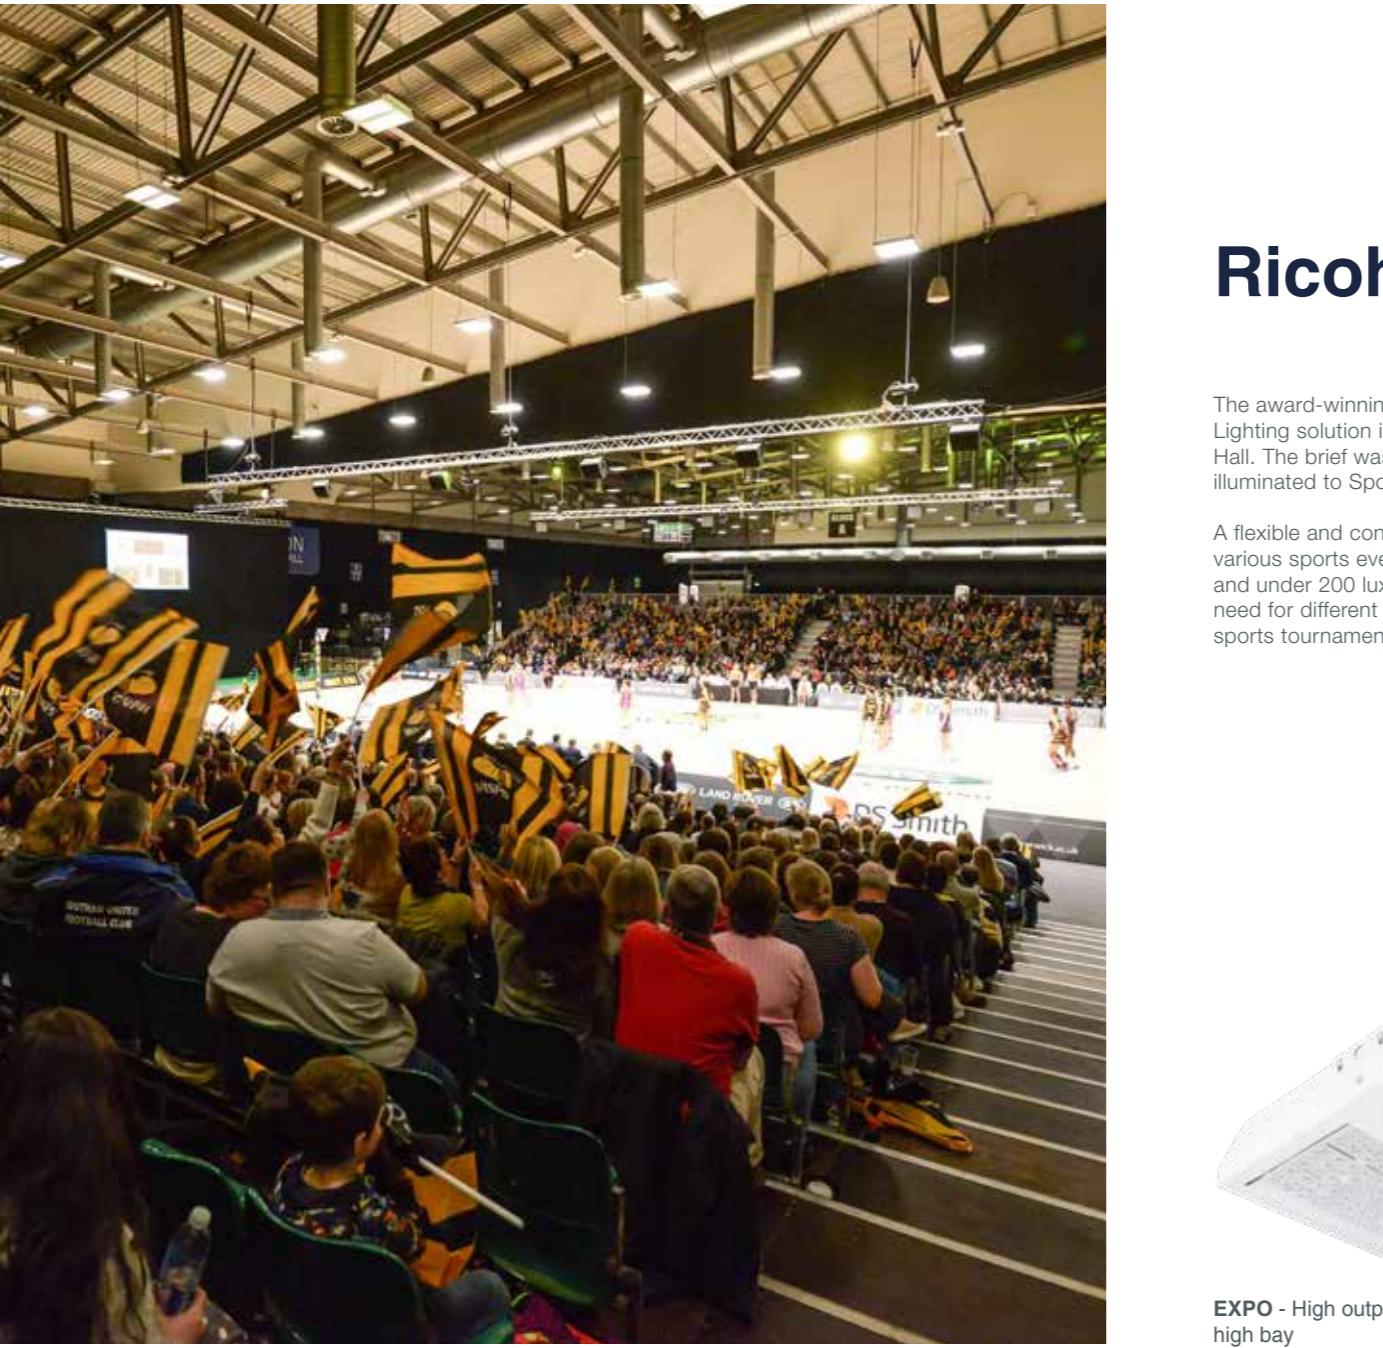

## Jones Bootmaker

Jones Bootmaker footwear retailer has over 70 branches and around 20 concessions in retail outlets throughout the UK. Alfred Jones began trading back in 1857; he was one of the first traders to install electric lighting in his shop and many people visited the store to see this new phenomenon.

This is a company that knows the value of lighting in retail stores, and they chose Tamlite Lighting to provide the ideal solutions. These products were used to showcase the display areas in their best light, to make every product look perfect.

i5 - High output recessed adjustable LED downlight

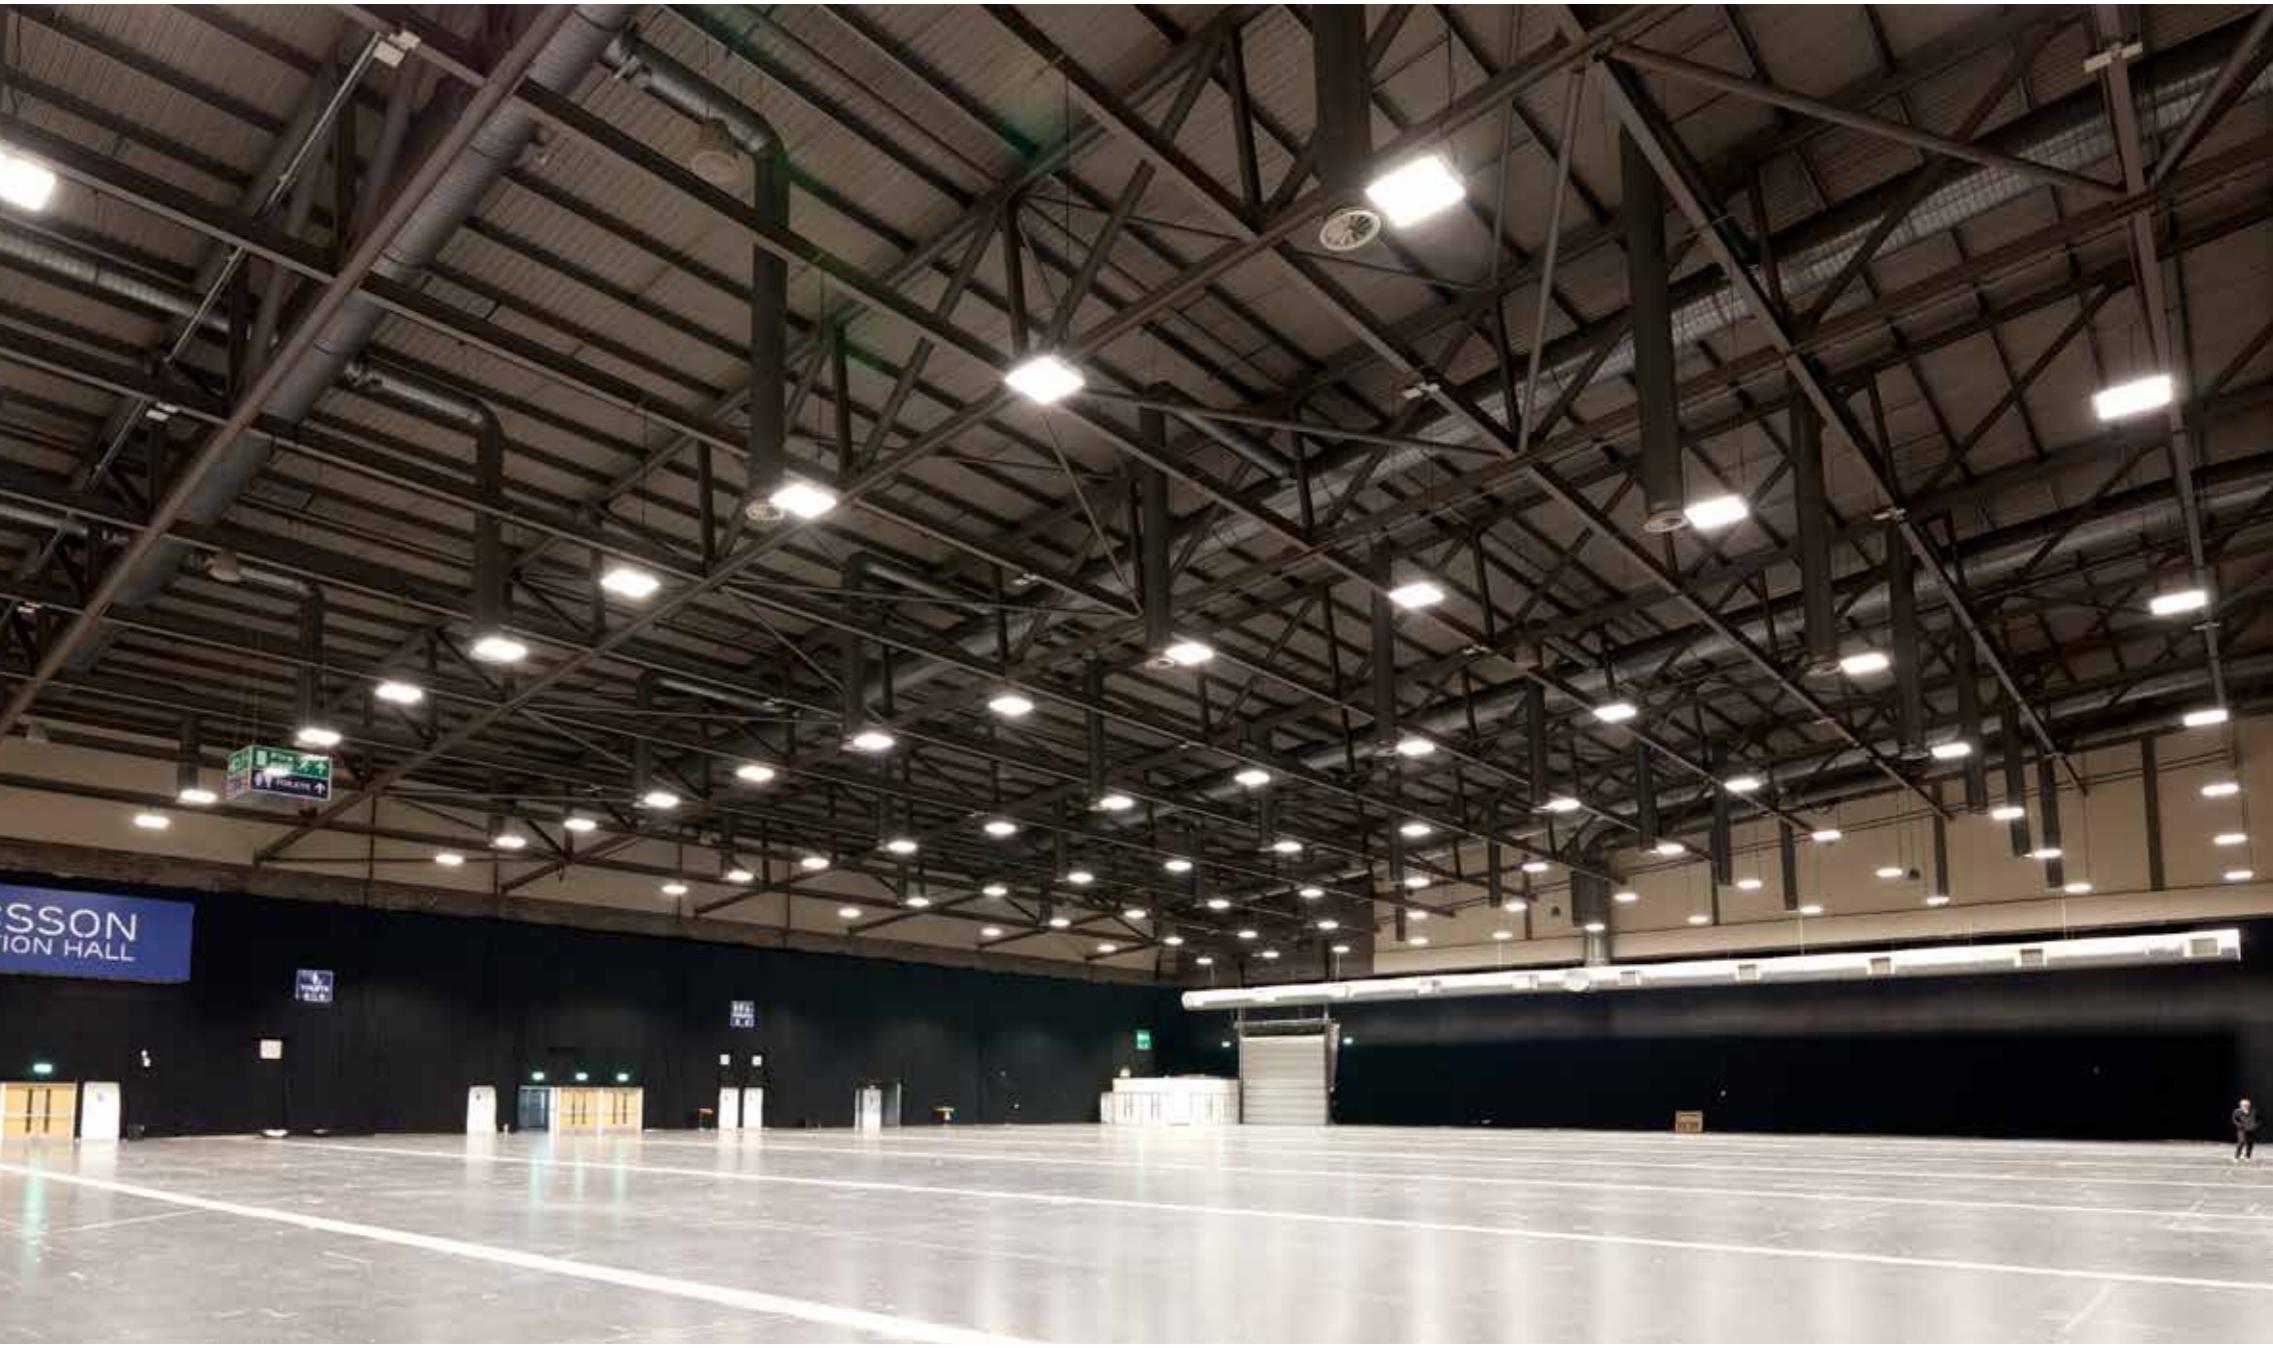

## Ricoh Arena

The award-winning Ricoh Arena, Coventry, implemented a Tamlite Lighting solution in its 6,000 square metres Ericsson Exhibition Hall. The brief was tight, to ensure that the hall would be illuminated to Sports England standards.

A flexible and controllable lighting solution to meet the needs of various sports events was key, from 800 lux for netball one day, and under 200 lux for snooker the next! Also specified was the need for different customers' requirements, from exhibitions and sports tournaments to concerts.

EXPO - High output LED Low bay/  
high bay

## BGL

The insurance giant BGL Group (owners of comparethemarket.com) modernised their head office in Peterborough with Tamlite Lighting solutions. BGL is a modern, fast-paced company, and Tamlite was quick to supply an array of lighting solutions, which were rapidly installed, to provide a fast turnaround.

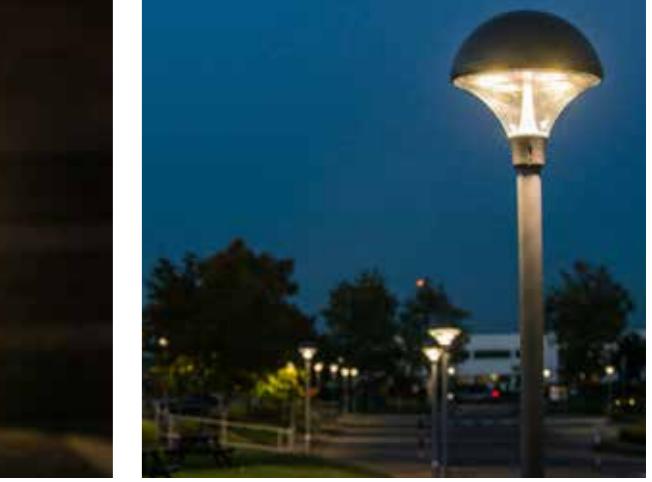

The exterior luminaires delivered an attractive, contemporary design to the building, and were significantly more energy efficient than the previous system.

**PLAZA** - Post top LED lantern

**FRESCO** - Extruded aluminium LED bollard

## Ford Garage

Paynes of Hinckley is a Ford showroom, garage and workshop, where cars are sold as well as serviced.

Tamlite Lighting solutions were installed in the workshop and garage to increase light levels, allowing mechanics to work safely and efficiently. The outdoor forecourt area was illuminated to increase the opening hours during winter months, and improve security at the site.

**MARINER** - High integrity, coastal protected LED floodlight

**EXPO** - High output LED Low bay/high bay

## Hastings High School

Tamlite Lighting solutions were chosen at Hastings High School. Tamlite knows the importance of lighting in educational establishments, providing human centric luminaires to benefit both students and staff.

Concentration levels must be maintained among students, so low glare fittings were installed in classrooms at the high school. The complexion of the classrooms changed, becoming more brightly illuminated, and improving productivity among students.

It is vital that students and staff members are comfortable in the classroom, but that the space is well lit. Through high output, low glare luminaires, classrooms can be illuminated to the ideal level.

Corridors and communal spaces were brightly lit, using occupancy sensors to reduce energy consumption. Emergency lighting solutions were also supplied in the classrooms and communal spaces, to provide sufficient illumination in the event of a loss of mains power.

PRIMA - Surface LED Module

MODLED LG - High performance LED panel with VDT optic

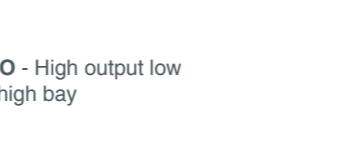

## CEF Online

As an ever-growing company and the UK's largest independent electrical wholesaler, the demand for CEF Online has increased over time. To accommodate this, the CEF Online stock holding has been relocated to a new-build, 100,000 square feet footprint, 3 storey warehouse in Biggleswade. Tamlite Lighting solutions were installed at the site, providing a lighting system throughout the warehouse, offices and urban spaces.

Providing a complete lighting system for CEF, coupled with intelligent, future-proof lighting controls, demonstrates Tamlite's ability to specify a flexible, versatile lighting solution, on a large scale.

**EXPO** - High output low bay/high bay

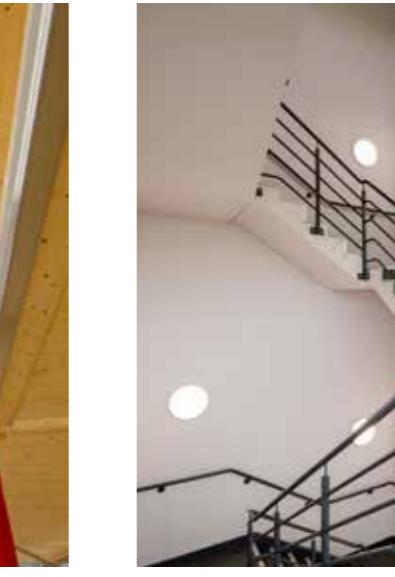

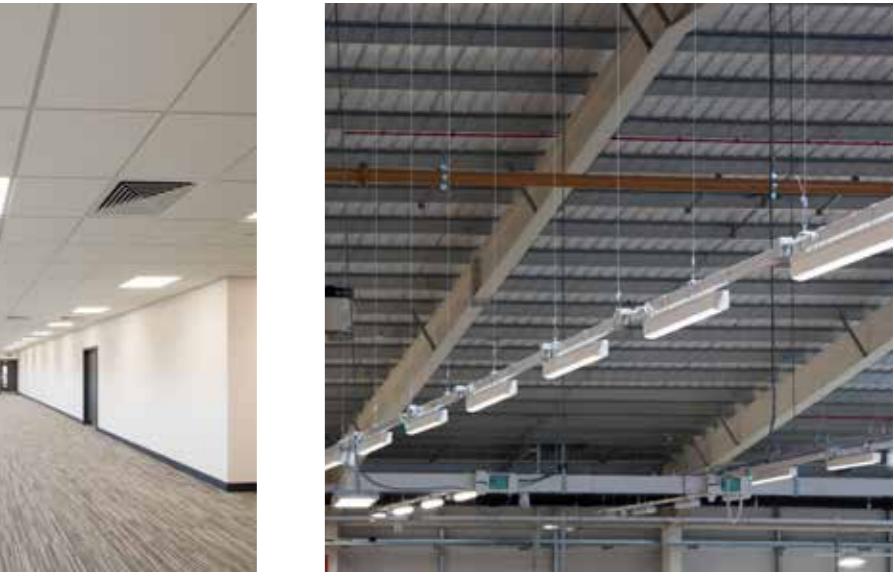

**LUNAR** - High performance LED bulkhead

**MICRO LED XL** - High performance LED batten

**SOLO** - Suspended LED linear system

## Winnington Park Primary School

Winnington Park County Primary and Nursery teaches pupils from 3-11. With the recent development of a new block at the site, Tamlite Lighting supplied a range of solutions, ideal for primary school occupants. Low glare optics ensured that the classrooms were a comfortable environment for both the pupils and the staff.

Tamlite also supplied luminaires for the communal areas and main hall, demonstrating Tamlite's effectiveness as a versatile lighting designer.

**AXIS** - Recessed LED module with profiled diffuser optic

**XTREME** - IP65 LED weatherproof, polycarbonate luminaire

**HORIZON COMFORT** - Recessed LED module with indirect/direct output

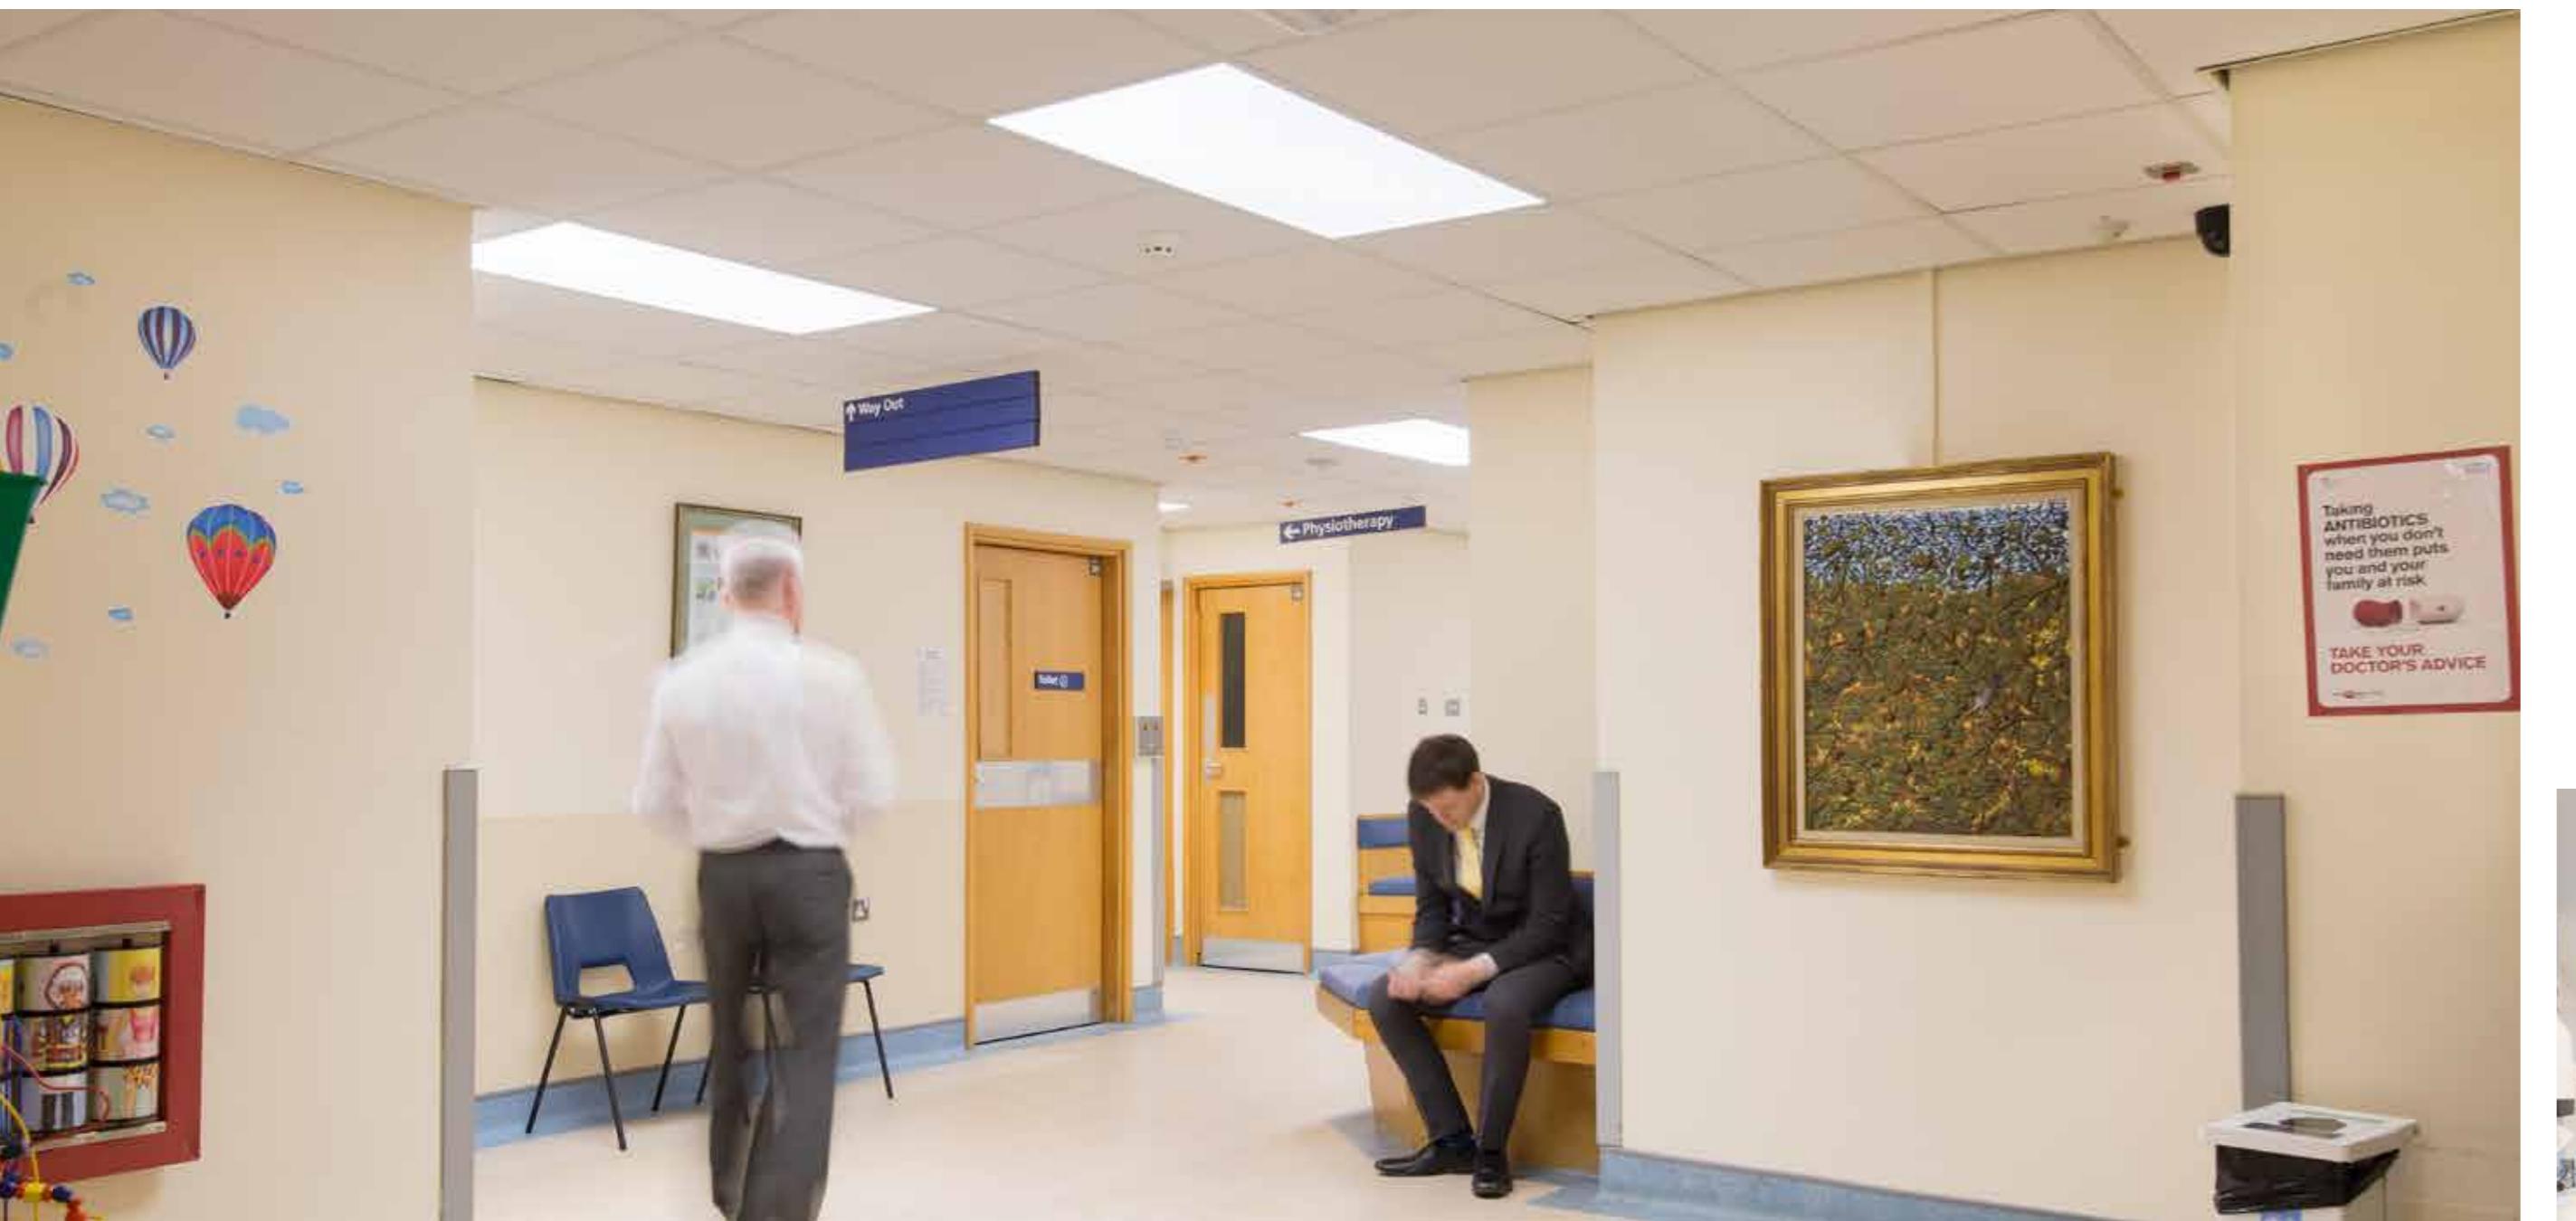

**METRO** - Exterior LED bulkhead

# Leominster Hospital

Leominster Community Hospital, in Herefordshire, provides medical care to those in the local community. The lighting at the hospital had become inadequate, so Tamlite Lighting was commissioned to provide a significant upgrade at the site.

Wards, clinic rooms and corridors were supplied with Tamlite solutions, to create a lighting system that benefits patients as well as staff. Low glare luminaires are designed to give patients a comfortable environment while they are given treatment.

**TBX** - Tri-colour LED Batten

**XTREME** - IP65 LED weatherproof, polycarbonate luminaire

**EUROLUX** - LED emergency bulkhead

**MODLED LG** - High performance LED panel with VDT optic

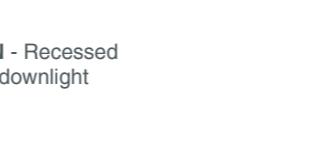

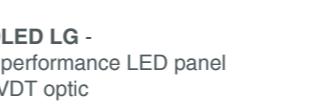

## Celesio UK

Celesio UK is a leading provider of integrated healthcare services to the NHS specialising in medicines, pharmaceutical care and primary care patient services.

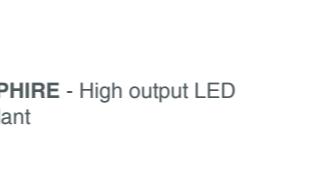

At the head office in Coventry, the lighting system was upgraded, with Tamlite Lighting solutions supplied for the offices and communal spaces, as well as the installation of quality emergency lighting.

**IKON** - Recessed LED downlight

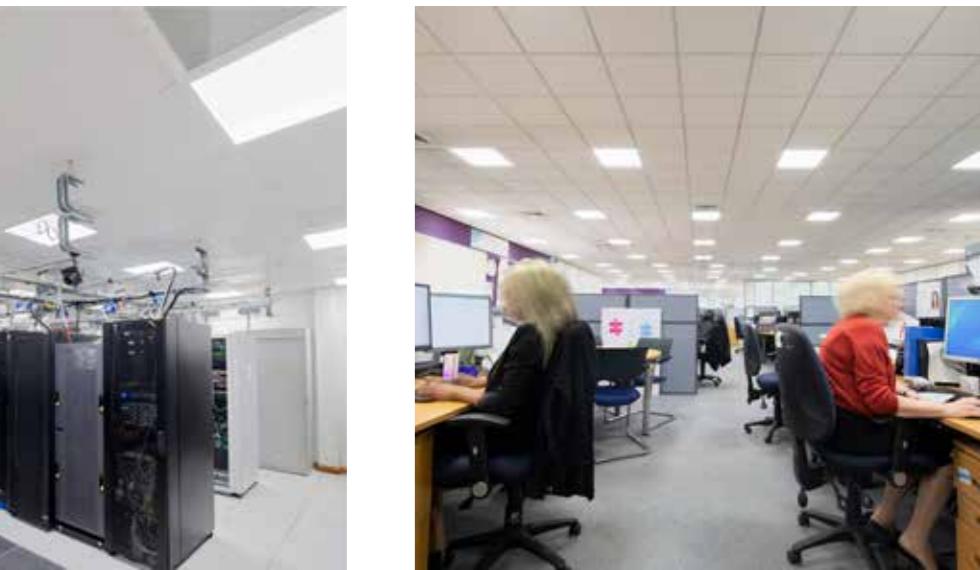

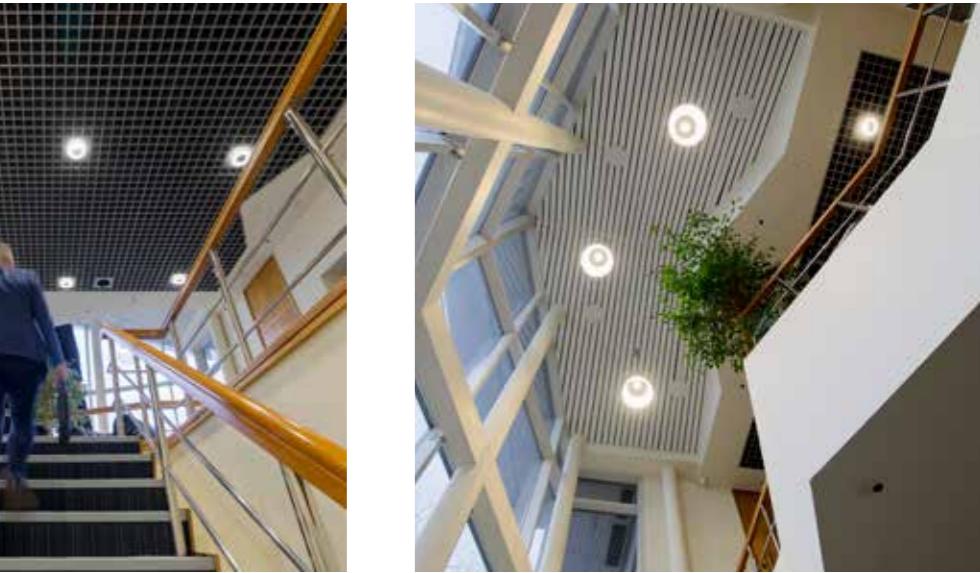

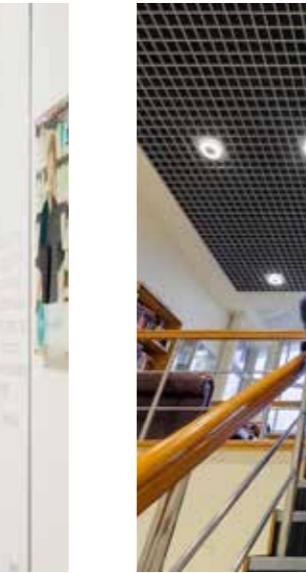

**MODLED LG** - High performance LED panel with VDT optic

**SAPPHIRE** - High output LED Pendant

**EXIS** - LED recessed or surface droplite
