

EnwaMatic® Mini Midi

ADVANCED WATER TECHNOLOGY

Side stream filtration and water treatment for smaller heating and cooling systems

PROTECT
NEW BUILDS

ENHANCE
REFURBISHMENTS

RESTORE
EXISTING SYSTEMS

**Side stream filtration
to < 10 microns**

Corrosion inhibition

Scale control

**pH regulation
(9.0 - 10.5)**

Air separation

**Restriction of bacterial
growth**

CLIENTS IN SECTORS INCLUDING:

Hospitals
Manufacturing
Residential

Labs & Process
Schools & Colleges
Stately Houses

Universities
HM Prisons
Pharmaceutical

Rail Projects
Leisure Centres
Maritime Oil & Gas

 Extends system lifespan

 Improves reliability

 Increases energy efficiency

 Reduces maintenance cost

 Green technology

 Improves Health & Safety

Supplied with installation pack:
Isolation valves
Check valve
Flow regulator
Sample valve

Model	System Volume (Litres)	Flow (l/min)	Pipe Size (BSP)	A (mm)	B (mm)	C (mm)	Weight Empty (kg)	Weight Service (kg)	Clearance below (mm)
EM Mini	0 - 500	3	3/4"	510	900	86	7.4	8.7	415
EM Midi	500 - 1200	5	3/4"	760	900	86	9.4	12.1	665

Max Operating Pressure: 10 bar

Max Operating Temperature: 85 C

Glycol compatible to 40%

Filtration only options for systems with Aluminium components
