NOMINATION FORM | 2020

Water Industry Leader of the Year

This category celebrates the accomplishments of an individual in a senior position from a utility, public or private company and aims to place a spotlight on their innovative leadership approaches and strategies. The impact of their work has improved and furthered the water value chain on a regional or country level. Their influential role should set high benchmarks in their respective industry sectors including, but not limited to academia, project design and development, engineering, technology and innovation, mentoring, coaching of colleagues, finance and legislation.
