ADVANCING TACTICS, TRAINING AND TECHNOLOGY

Tangent Link's global Aerial Firefighting series returns to Sacramento for its biennial event in 2020. With a new CAL FIRE Chief Thom Porter as well as new advanced aerial firefighting platforms entering into service, this event focuses on a new chapter in North America's Aerial Firefighting operations and response.

Workshops, thought leading presentations and case studies will debate key subjects including Tactics, Training and Technology, bringing together the very best minds in understanding the advances being made in this safety conscious profession.

Testimonials from previous AFF clients – Don't just take our word for it!

NORTH AMERICA AERIAL FIRE FIGHTING

Excellent conference.
Great opportunity to network. Presenters provided great content. I will continue to attend.

VENTURA COUNTY FIRE

Once again the Tangent Link Team put on a premier event, offering fantastic information presentation and unparalleled networking opportunities for aerial firefighting.

CAL FIRE

Thanks for your support and the rest of Tangent Link at the event. As a sponsor we felt valued and believed we made a valuable contribution to the conference delegates. The demonstration was a great way to show exhibitor's products as well as giving a more comprehensive understanding of new concepts and systems. Well done team.

BIOCENRAL LABORATORIES
BLAZETAMER

The networking opportunities were fantastic, well worth delegates and trade exhibitors. Static and Dynamic demonstrations were well organised and a highlight of the conference.

QUEENSLAND FIRE AND
EMERGENCY SERVICES

The conference went absolutely very well for us, it was interesting and useful. We enjoyed every moment, both of professional networking and the excellent atmosphere of communication between colleagues, the people who speak in the same 'firefighting' language.

Your team is incredible.

BERIEV AIRCRAFT
COMPANY

One of the best industry specific events I have attended with key decision making persons in attendance.
