

80x80 Shell Scheme

The 80x80 Square Profile Shell Scheme by Creative Live provides a fabulous finish, clean lines and the opportunity to upgrade your stand in cost effective ways.

Our 80x80 Shell Scheme is a modular stand system, constructed using poles and panels and can be built to any size and configuration. The shell scheme will include walls, fascia, nameboard and carpet.

The specification of the shell scheme is as shown. Please note, there will be coloured nameboards specific to each zoned area.

Please be aware that the system **has a minimal ceiling grid**. We will place limited ceiling beams on stands which lighting can be attached to in the normal way but advise that you contact us with exact requirements if placement is imperative to your display.

If you wish to attach materials to your shell scheme such as posters, graphics and / or material we suggest the use of double-sided Velcro or double-sided sticky pads. These options do not damage the panels of the stand. Please do not stick anything to the metal work. **Any damage incurred will be charged for.**

If you are unsure of weight limits or have any other questions regarding the Shell Scheme or any of our other services, please do not hesitate to get in touch:
