

GROUP TRAINING

Small group training on Evac+Chair from one of our experienced trainers. Carried out at your site and with your equipment to guarantee a tailored, hands-on experience.

- Operator or 'Train the Trainer' courses
- Theory and hands-on practice improves staff confidence
- Certificates provided for all delegates

ANNUAL SERVICING

Under the Provision and Use of Work Equipment Regulations (PUWER) 1998, all organisations are legally obliged to service and maintain evacuation equipment. Our Evac+Chair annual servicing will ensure that your evacuation chairs are always maintained and ready for use in an emergency:

- Thorough visual inspection and test
- Replacement of any worn parts
- Servicing certification

"The small group session worked well. The trainer was able to answer questions and personalise the training to our needs."

A. DAY,
EVAC+CHAIR TRAINING

EVAC+CHAIR
Emergency Evacuation For Everyone

The Responsible Person for any premises has a responsibility to ensure **everyone can evacuate safely** in the event of an emergency.

DESIGNED & MADE IN BRITAIN

EVAC+CHAIR's unique design prioritises simplicity of operation and user comfort. It provides a universal solution to safely evacuate anyone with a permanent or temporary mobility impairment from a multi-storey building.

- World leaders in evacuation for 35 years
- Designed and manufactured in the UK
- Widely accredited with many organisations including BSI, FIA and Constructionline

Single person operation

The 300H can be easily operated by one person for swift evacuation

Unique friction belt system

Self-braking track to control smoothness and speed when descending stairs

25%

UK business decision makers do not know how many disabled or mobility-impaired people there are within their organisation
