

Quentic EHS Solution

digitize your EHS management with an all-in-one solution

straight to the goal with Quentic

Connecting data and people

Quentic is the complete, cloud-based software for your EHS management. Assess your company's performance from multiple perspectives with precision. Make clear, data-driven decisions and control processes and actions centrally and automatically.

Bring together various stakeholders from health and safety, environmental management, and sustainability all into one system. Boost your efficiency with streamlined internal and external workflows. Quentic keeps everyone up to date and on the same page, both on the road and in the office.

For your success and our future

Manage and implement your entire EHS program with Quentic. Comply with legal obligations and industry standards, mitigate risks, and ensure health and safety in the workplace. And control your resource flows, consumption, and costs.

Quentic enables you to proactively drive business success while taking responsibility for a sustainable future. We make it easy to foster trust and motivation among your customers, partners, and employees.

EHS software that drives your business forward

By your side, every step of the way.

- Standardized reports

Usability

- Onboard users fast
- Get personalized overviews
- Easily interface with third-party systems

we help customers fulfill the highest standards

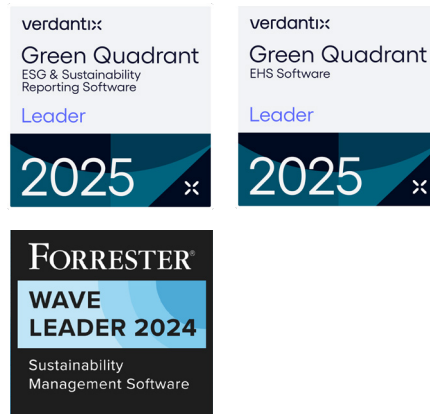

Quentic EHS Solution has been officially tested and verified by DEKRA according to ISO standards.

- ISO 9001**
- ISO 14001**
- ISO 27001**
- ISO 45001**
- ISO 50001**

Quentic is built from the ground up on Software as a Service (SaaS) technology.

- No installation: use any browser to start
- Maximum availability, work from anywhere
- No need for additional hardware, maintenance, or backup on your end
- Your EHS data hosted on high-security servers certified by ISO 27001

Forrester and Verdantix have recognized AMCS/Quentic as a leader in EHS + ESG software.

Forrester does not endorse any company, product, brand, or service included in its research publications and does not advise any person to select the products or services of any company or brand based on the ratings included in such publications. Information is based on the best available resources. Opinions reflect judgement at the time and are subject to change.

the perfect solution for everyone

Whether you work with a handful of colleagues or a hundred, Quentic allows you to intelligently manage access to work areas, data records, and documents so that everyone can focus on their core tasks.

Quick access for users in a hurry

Short on time? Your personal overview shows you everything you need to know. From there, you can get started and quickly check off all your necessary tasks.

Precise information for in-depth users

Quentic provides detailed information for each of your specialist areas. Clear data forms make it easier to manage complex issues, reviews, and approvals.

Finished packages for external parties

You can also integrate external parties, making collaboration even easier. In addition, selected information or complete reports can be converted to standard data formats and emailed.

welcome to our community

From manufacturers to service providers, utilities to logistics companies, SMEs to large corporations, Quentic drives operational excellence in any industry. Multilanguage capabilities improve collaboration for global enterprises.

How does it work? Quentic is a highly flexible software that can be integrated into your company's existing processes. You can seamlessly map your unique business structures, including locations, facilities, and tasks into your system.

Join a network of more than 1,000 companies that trust Quentic. Meet us in person at our annual VISIONS user conference or online to connect and share your experiences.

“

Ensures seamless and legally secure documentation.

Nicolas Tauchnitz
Compliance Management
Berliner Wasserbetriebe

“

Quentic enables us, as a global enterprise, to standardize environmentally relevant processes and to create maximum transparency. This pays off for us both environmentally and economically.

Andreas Mayer
Head of Environment &
Sustainability Management
Alfred Kärcher

“

Quentic allowed us to save 70% of the time spent on creating risk assessments.

Michael Schmidt
Health & Safety Manager
Karlsberg Brauerei

Make faster progress with AI

Quentic offers state-of-the-art support, including AI-powered import of your safety data sheet collection, on-demand translation, and root cause analysis for incident reviews.

We are happy to help

- Advice on module choice
- Workshops and training
- System implementation
- Data migration/synchronization
- Content services
- Supervision of rollouts
- User support
- International partner network

great usability for solid insights

EHS on the go

The Quentic App enables you and your colleagues to submit incident reports, inspection protocols, audit results, and more with your smartphone – even without your own account.

Instant reporting with the Quentic App

- Fast and easy to use
- Ready-made forms to choose from
- Create your own use cases
- Photos and offline functionality
- Engage all employees
- Centrally evaluate and process data reports

Keep track of performance

Get up-to-date KPIs and charts of your EHS indicator data and take your visual data analysis to the next level.

Business Intelligence with Quentic Analytics

- Intuitive dashboards for top management
- Track developments and trends clearly
- Make data-driven decisions with confidence
- Choose your out-of-the-box setup or a custom dashboard
- Alternatively, connect your own BI solution

Integrate third-party systems

Connect existing data and processes with Quentic. Our IT team will be happy to take care of interfaces, imports and exports, data synchronization, automation, and optimization.

Networking with Quentic Connect

- Automatically sync user data, site information, and more
- Add services from leading content providers
- Exchange EHS/ESG data in a variety of formats and benefit from a centralized database
- Save time and effort

steer the future

Meet your sustainability and ESG requirements with our AMCS ESG Solution, which can be connected to Quentic EHS Solution. Allow your EHS and ESG departments to share metrics, identify synergies, and streamline processes.

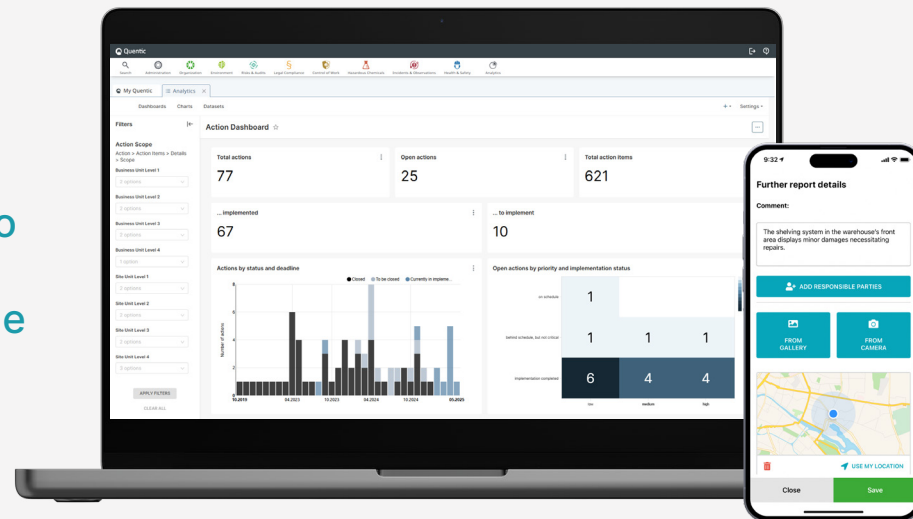

Sustainability with AMCS ESG Solution

- Evaluate the social, environmental, and economic aspects of your business
- Automate and manage your entire sustainability program and ESG reporting
- AI-powered tools for carbon data management, visualization, and disclosure
- Fully integrated reporting frameworks and standards

“

Our team unites IT experts and specialists from EHS + sustainability – so you get the best services from one source.

Dr. Torsten Thurmann
Director of EHS/ESG
Product Business Unit
AMCS Group

With Quentic, you can easily manage all your occupational and environmental safety tasks.

Quentic (an AMCS company) is a premier SaaS provider for EHS and ESG management, serving more than 1,000 customers worldwide.

Quentic was acquired by the AMCS Group in 2022. The acquisition combines AMCS's global reach and digital expertise with Quentic's specialized solutions and market fit to drive innovation in sustainability, safety, and compliance. Together, Quentic and AMCS will continue to deliver integrated technologies that support a healthier, cleaner, and more sustainable future.
