

RapidOne

One platform with **all the products**

With Rapid One you get access to advanced AI features along with all the integrations and tools you need to manage safety more efficiently.

Rapid Contractor Management

Get a real-time dashboard and features to help you ensure workforce compliance 24/7.

Rapid Induct

Streamline your safety induction, employee onboarding and compliance management processes with a single cloud-based software solution.

Rapid Access

Easily track attendance at one or more sites in real time and guard against unauthorised entry.

Rapid Monitor

Use AI-powered camera software to uncover unsafe acts and hazardous conditions. Collect insights to drive change and improve safety outcomes.

Rapid Incident Reporting

Make incident reporting easy for all staff and contractors by providing mobile or desktop reporting solutions.

Rapid Auditor

Automate audit management. Register tasks, automate reminders and complete workplace audits and inspections from any device.

Rapid Permit To Work

Ensure your most hazardous tasks are performed safely, efficiently, and in compliance with Rapid's Permit To Work software.

Why Rapid One?

Simple pricing

By bundling our products you only pay one price, billed on one invoice, and the more products you use, the more value you get.

Onboarding support

All training and onboarding is handled by a dedicated Project Coordinator, who will work with your team to ensure the solution is set up to capture all the insights you need.

Reputable company

With over 20 years of expertise and a demonstrable track record in safety and compliance, Rapid One offers a secure and reliable solution that you can trust.

Customisable software

Address your unique safety challenges effectively with software that can be intelligently adapted to suit your specific needs.

Proprietary AI technology

Our software includes proprietary AI-driven computer vision models to significantly enhance efficiency. This guarantees that our platform is innovative and effective in tackling practical safety challenges in the AI age.

Strong data privacy

Rapid Global uses multiple security controls (software, physical and process based) across all our products, to protect client data, compliant with the ISO/IEC 27001 information security standard.

Contractor management

Manage suppliers and contractors **with ease**

Enjoy a real-time dashboard to manage contractors and ensure workplace compliance 24/7. Simplify a range of compliance tasks to improve efficiencies and get more done.

Speed up workflows

Reduce your team's workload with pre-qualification, credit checks, and ongoing contractor management.

Centralise document storage

Go paperless: collect, store and manage all types of contractor documents in one place.

Improve compliance

Verify and manage contractor compliance, insurance, SWMS and inductees all from a single screen.

“We required a configurable solution, and we have that capability with Rapid.”

Sahra Vidotto,
Power Generation HSE Manager,
Alinta Energy

Online inductions

Simplify your inductions and safety training

Streamline your safety inductions, onboarding and compliance training processes for your employees and contractor workforce.

Create custom course content

Supplement your course library with our free pre-written courses or upload your own SCORM courses.

Empower inductees

Provide inductees with a user friendly online training portal tailored to fit your brand and requirements.

Access compliance data

Monitor the compliance status of your entire workforce through live dashboards and reports.

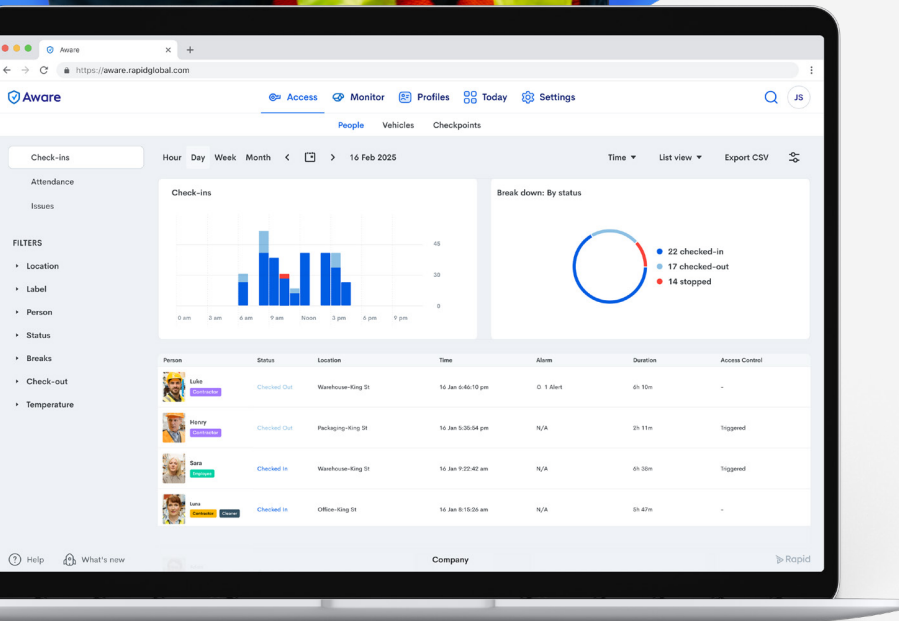

Visitor management

Check in visitors, employees & contractors

Transform how your personnel, contractors, and visitors access your sites with a sign-in solution that is simple to install either with or without hardware depending on the needs of your business.

Check-in fast

Sign in via QR code, geolocation, mobile, tablet kiosk or IP cameras linked to access control.

Run swift evacuations

Send automatic evacuation messages to people on-site and get instant clarity of who is accounted for.

Capture insights

Enjoy real time visibility of who's on site and the compliance rate at any time.

Safety monitoring

Identify unsafe acts with AI

Use AI-powered camera software to uncover unsafe acts and hazardous conditions. Collect insights to drive change and improve safety outcomes.

Detect missing PPE

Receive alerts for missing hard hats or hi-vis vests. Easily measure PPE compliance over time.

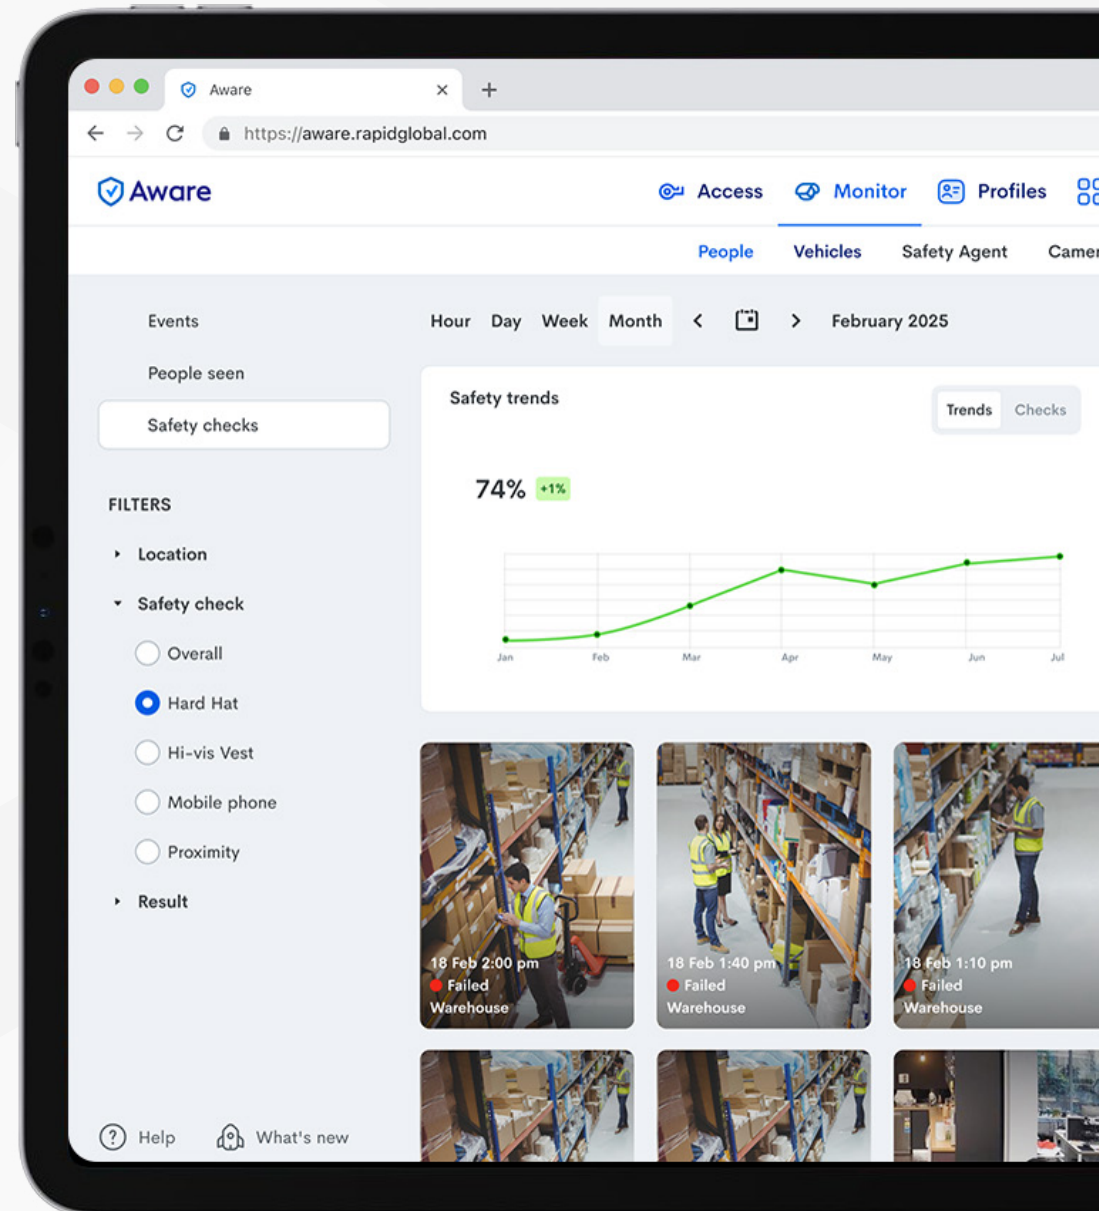

Enhance safety

Gain real time visibility into unsafe actions and incidents with an AI agent monitoring your site rules.

Track forklift proximity

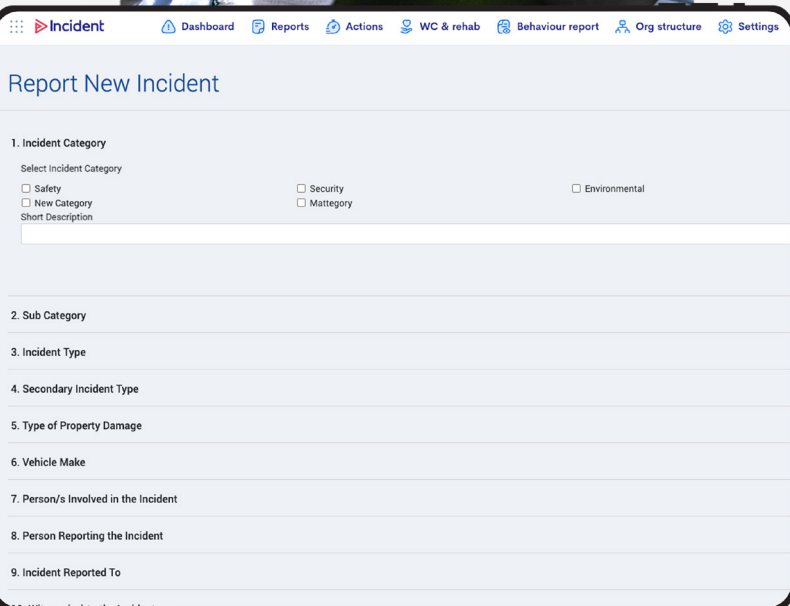

Track zone breaches and close encounters between forklifts and pedestrians to prevent major incidents.

Incident reporting

Streamline incident reporting

Increase the likelihood that everyone at your workplace will report incidents as they happen with our easy to use tool that helps automate the entire process.

The screenshot shows a web interface for reporting incidents. At the top, there is a navigation bar with links for Incident, Dashboard, Reports, Actions, WC & rehab, Behaviour report, Org structure, and Settings. The main heading is 'Report New Incident'. Below this, there are several sections for data entry:

- 1. Incident Category**: Includes a 'Select Incident Category' section with checkboxes for Safety, Security, Environmental, New Category, and Mattegorry.
- Short Description**: A text input field.
- 2. Sub Category**: A text input field.
- 3. Incident Type**: A text input field.
- 4. Secondary Incident Type**: A text input field.
- 5. Type of Property Damage**: A text input field.
- 6. Vehicle Make**: A text input field.
- 7. Person/s Involved in the Incident**: A text input field.
- 8. Person Reporting the Incident**: A text input field.
- 9. Incident Reported To**: A text input field.

Report incidents in real-time

Report and manage all incidents from any device, ensuring management is instantly notified.

Track, plan, and resolve incidents

Use the central dashboard to track incidents, investigative plans, corrective actions, and due dates.

Gain more visibility into incidents

View audit logs, calculations of the total recordable injury frequency rate, and other custom reports.

Safety audits

Strengthen audits & inspections

Register assets, automate reminders, complete safety investigations, and schedule maintenance inspections from any device with all the data stored safely in one place.

Customise the audit process

Create unlimited audit checklists, build custom forms, categorise audits, and attach documentation.

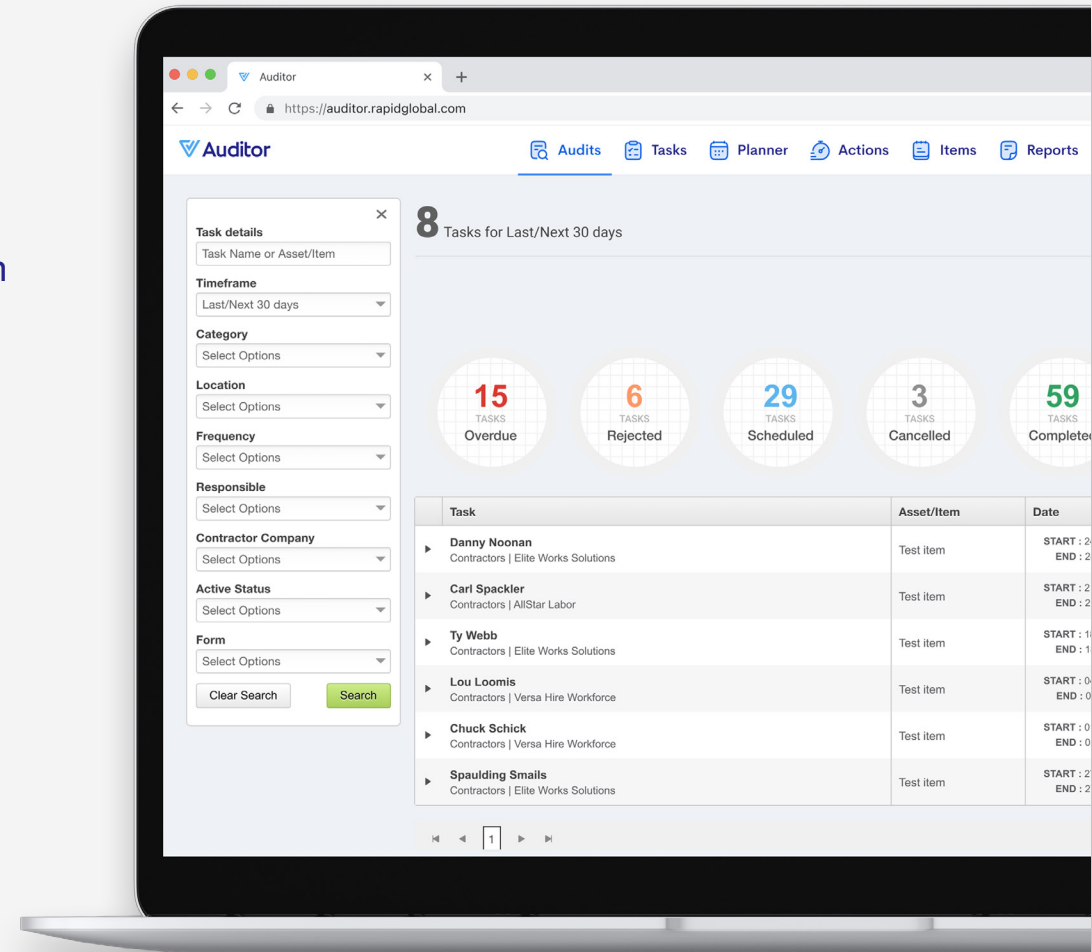

Track audits online

Plan and schedule audits in advance, track and review tasks, and assign actions with set expiry dates.

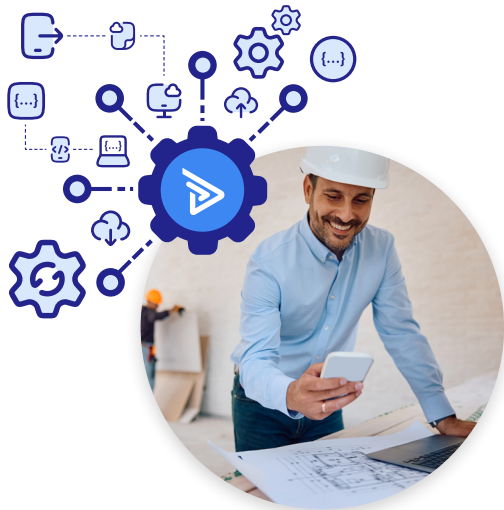

Analyse and report on data

Easily view audit statuses in a dashboard, receive summary reports, filter data and export it to Excel.

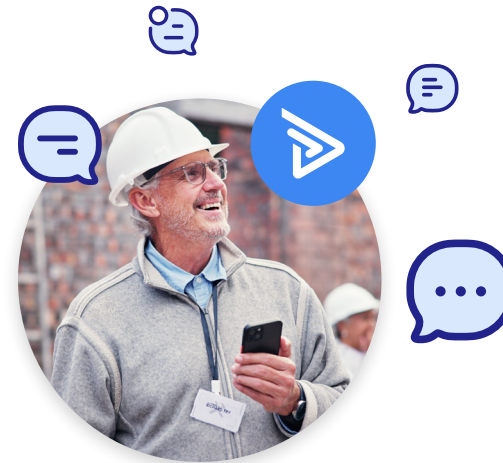

All inclusive

Additional features

Get more out of Rapid with complimentary API access

Rapid One includes full API access at no extra cost - enabling more integrations, streamlined workflows, and deeper value from the systems you already use.

Respond faster with SMS built into your plan

Rapid One includes complimentary SMS capabilities - perfect for evacuations, and notifying hosts when a visitor checks in. Your SMS allowance is scaled to match the value of your subscription, with the option to pay for more if needed. Whether you're managing daily operations or responding to critical events, SMS alerts help you stay connected when it matters most.

Experience **best-in-class** technology for your business

Let our experts show you how Rapid's next-generation of workplace health and safety software can redefine how you manage safety and compliance.

Award-winning software

Rapid One is built on the foundations of Rapid's multi-award winning software.

At Rapid, we take pride in partnering with our clients to develop innovative software solutions that consistently outperform market competitors.

Our extensive range of compliance, safety, and risk management solutions has provided our clients with the tools they need to automate their workplace compliance processes.

Expanding global footprint

Rapid is an expanding company with clients located around the world.

Our headquarters are based in Sydney, Australia and we have offices in Adelaide, and Twickenham in the UK, as well as reselling networks located in South Africa and New Zealand.

Expert client services team

Our Client Services team are well positioned to support our clients located in the Asia-Pacific region, as well as the UK, and Europe. Clients are assigned a dedicated Project Coordinator that will configure and deploy your Rapid system.

20+ years' industry experience

With over 20+ years of experience, you can be assured you will receive the utmost quality and care from the beginning of your time with Rapid. Our extensive experience means we understand the importance of excellent customer service.

Security & data privacy

Rapid is ISO 27001 certified which demonstrates Rapid's commitment to industry standard protocols to safeguard your sensitive information and keep your business up and running with limited interruptions and downtime.

About Rapid Global

Leading global companies choose Rapid to streamline their compliance and safety processes. Together, our suite of products offers an end-to-end solution that supports a culture of safety and compliance for businesses across Australia, the UK, Europe, South Africa, and the USA.
