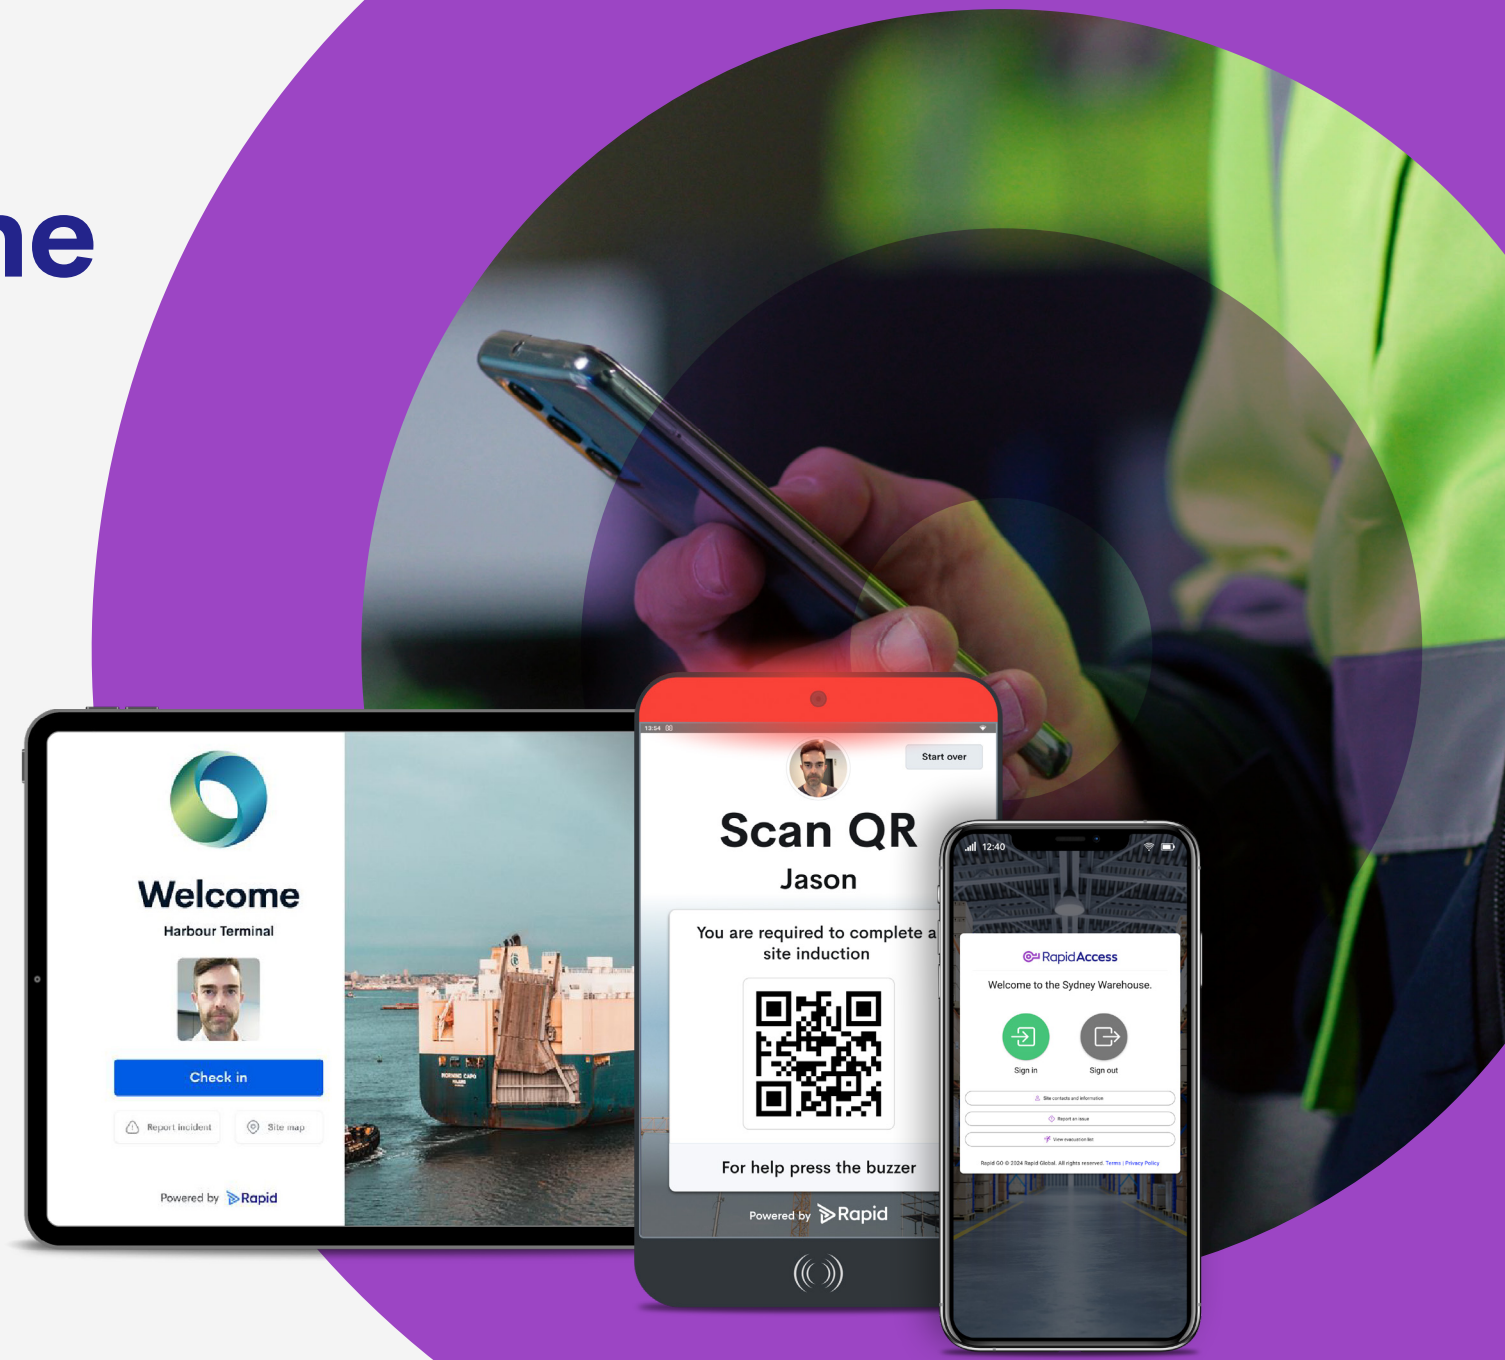
RapidAccess

Sign into the workplace securely

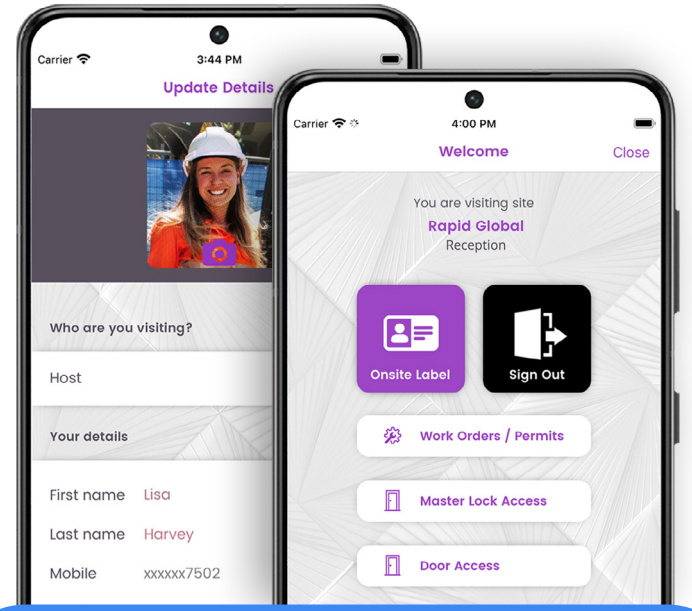
Our flexible visitor management software.



Rapid | Making the world a safer place to work

Keep track of everyone **that visits your site**

Rapid Access is a comprehensive check-in and screening tool that provides real-time visibility of employees, contractors and site visitors entering and exiting your facilities



Streamline site access

Sign in via mobile or iPad, QR code, geolocation, ID card and more.

View real time insights

See who is entering or exiting your sites from any device, at any time.

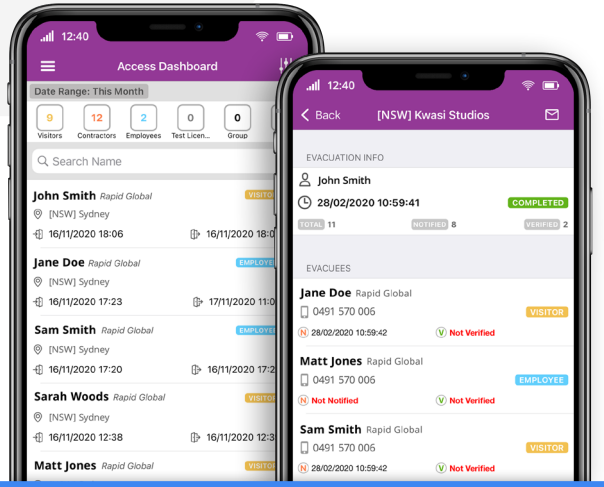
Receive instant notifications

Receive visitor check in SMS/email notifications and alerts for non-compliant sign-in attempts.

> **"If I'm looking at a line on a spreadsheet, I don't know who Mark Burns is. With Rapid, I can go up to anyone on-site — get out the app, look at their photo, and see all their documents."**
>
> *Sahra Vidotto,*
> *Power Generation HSE Manager,*
> *Alinta Energy*

Improve safety and emergency **management processes**

Streamline your emergency management processes with complete oversight of all employees, contractors, and site visitors.



Audit workers on-the-spot

Use our mobile app to spot-check audit a worker. See their induction and training status. Upload licences, verify or reject documents, take an ID photo, and store the documents.

Streamline emergency management

Send evacuation messages to all personnel on site and get 'safe' messages when they reach the muster point.

Print visitor labels

Print wearable labels to easily identify site visitors, contractors, and suppliers.

> **"Many contractors we've had come to site and use the system have been very, very impressed with it. A lot of them haven't come across a system like it and have said 'this is really impressive; we should be doing something like this back at our business."**
>
> *David Hook,*
> *Maintenance Superintendent,*
> *Adchem*

Empower site administrators **with insights**

Easily monitor all sign-in activities, compliance statuses, and notifications via mobile or web. Automate reporting, assign hosts, and export data as needed.

Pre-screen visitors

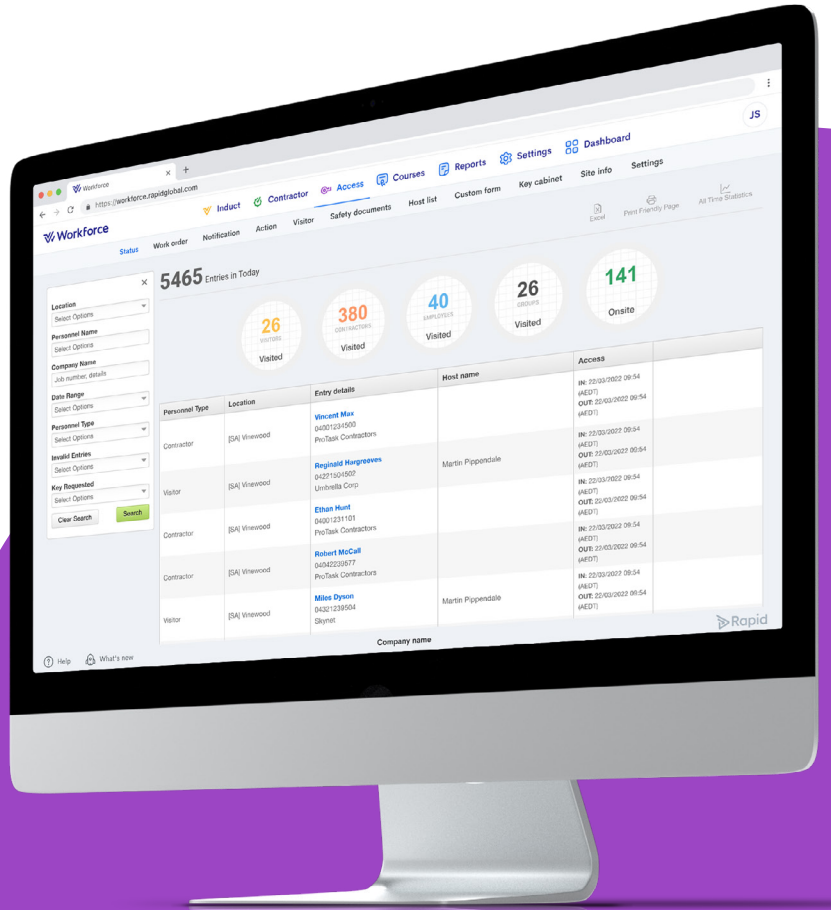
Include health screening questions, evacuation maps, site safety rules, and more.

Assign a host

Improve site security and better welcome visitors by assigning hosts to visitors.

Automate reporting

Receive data on who is on site at any time, how long they spend on site and much more.



Tailor Rapid Access to meet **your business requirements**

The software can be intelligently adapted to suit the requirements of your business. Our experienced team will configure the platform specifically to match your business needs.

Customise visitor workflows

Whether it's visitors, contractors, employees, customers, or clients, you can present each visitor type with a unique site induction, customised to the specific site they are entering.

Leverage beacon technology

Easily manage entry and exit throughout your facility, not just one access point. Assign individual permissions to specific personnel and set time limits for access to specific locations.

Enhanced data privacy and security

Rapid's information systems are ISO 27001 certified, which demonstrates our commitment to industry standard protocols to safeguard your sensitive information.

> **"We use the geofencing feature which has been very good for the companies it's switched on for. It enables the contractors to sign in themselves and set their time limits for how long they are going to be on site, so it takes the responsibility almost out of our hands and provides them the responsibility."**
>

> *OH&S Team Leader,*
> *Queensland Wide Bay Hospital and Health District*

Rapid Access **hardware**

Scan a QR code to sign in or integrate with a range of hardware devices to improve security and safety.

Sign-in tablets (optional)
Install Rapid Access tablets at site entry points for electronic sign-in.

Face recognition sign-in (optional)
Turn an iPad into a face check-in kiosk for visitors, staff and contractors. Auto verify someone's identity and their compliance status to grant or deny site access.

QR code reader (optional)
With a QR code reader at the entry point, personnel can scan their unique QR code from either the Rapid Induct App or an ID card (if applicable).

Label printer (optional)
Use a label printer to provide visitors with wearable labels for easy identification.

Security cameras (optional)
Integrate with security cameras at key access points such as a boom gate or turnstile.

Fingerprint scanner (optional)
Allow workers to sign in quickly and efficiently using their unique and secure fingerprint.

One platform with **all the products**

With Rapid One you get access to advanced AI features along with all the integrations and tools you need to manage safety more efficiently.

Rapid Contractor Management
Get a real-time dashboard and features to help you ensure workforce compliance 24/7.

Rapid Induct
Streamline your safety induction, employee onboarding and compliance management processes with a single cloud-based software solution.

Rapid Access
Easily track attendance at one or more sites in real time and guard against unauthorised entry.

Rapid Monitor
Use AI-powered camera software to uncover unsafe acts and hazardous conditions to drive change and improve safety outcomes.

Rapid Incident Reporting
Make incident reporting easy for all staff and contractors by providing mobile or desktop reporting solutions.

Rapid Auditor
Automate audit management. Register tasks, automate reminders and complete workplace audits and inspections from any device.

Rapid Permit To Work
Ensure your most hazardous tasks are performed safely, efficiently, and in compliance with Rapid's Permit To Work software.

FOR WORKERS AND CONTRACTORS

Rapid Access App

Perfect mobile or iPad sign-in software for your workers. They can use this registration app to sign in to sites using a QR code or geolocation, change or upload their profile photo, report an issue identified on site, and view the emergency evacuation procedure.

FOR SYSTEM ADMINISTRATORS

Rapid Admin Tools app

Search for a person, spot-check audit a worker, see induction and training status, upload licences live in the field using your phone camera, verify or reject documents on the spot, take an ID photo and store documents.

Available on the App Store
