RapidPermit to work

Ensure compliance with Permit to Work

From creating permits to ensuring safety protocols are followed, our Permit to Work solution makes it easier than ever to protect your team when it comes to high-risk activity.

Save time issuing and **approving permits**

Eliminate paperwork and speed up approvals with seamless permit automation.

Submit one permit for all workers

For multiple workers on the same job, submit and approve one permit for all to sign in and start high-risk work.

Automate the approval process

Ensure that permits are systematically reviewed and approved by the necessary stakeholders.

> **"One of the major benefits is that contractors are able to log in, and if there are 3 or 4 contractors from the same company then they only have to do one permit, they all come to site and sign in electronically. And having the system store the permits electronically means they can't go and do any work unless we authorise it, we know what they're doing, we know where they are, we know what risks are involved, and we can do that all from our phones or our desktops."**

Keep your workforce **safe and compliant**

Together with Rapid Access, you can ensure contractors have the proper permissions to work before they come onsite and sign in.

Manage the entire permit lifecycle

Streamline the process of issuing and managing permits online.

Make the process easy for workers

Workers can submit permits and request site access online, either on-site or via their contractor administrator before arriving.

Customise work order forms

Issue and validate permits from any device, supporting all types like Working at Heights, Confined Space, and more.

One platform with **all the products**

With Rapid One you get access to advanced AI features along with all the integrations and tools you need to manage safety more efficiently.

Rapid Contractor Management
Get a real-time dashboard and features to help you ensure workforce compliance 24/7.

Rapid Induct
Streamline your safety induction, employee onboarding and compliance management processes with a single cloud-based software solution.

Rapid Access
Easily track attendance at one or more sites in real time and guard against unauthorised entry.

Rapid Monitor
Use AI-powered camera software to uncover unsafe acts and hazardous conditions to drive change and improve safety outcomes.

Rapid Incident Reporting
Make incident reporting easy for all staff and contractors by providing mobile or desktop reporting solutions.

Rapid Auditor
Automate audit management. Register tasks, automate reminders and complete workplace audits and inspections from any device.

Rapid Permit To Work
Ensure your most hazardous tasks are performed safely, efficiently, and in compliance with Rapid's Permit To Work software.
