# Welcome to Safety, Health & Wellbeing Live London and Fire Safety Live

Welcome to Safety, Health & Wellbeing Live London and Fire Safety Live 2026. It is a pleasure to welcome you to your safe place for navigating the health and safety landscape.

Across two packed days, the event brings together health & safety and fire safety professionals from across the UK and beyond. Designed to support a profession that continues to evolve, the show provides the opportunity to learn, share best practice, explore solutions and reconnect with the community that underpins our industry. Whether you are here to gain CPD, stay ahead of emerging risks or source new suppliers, we hope you find the experience both valuable and inspiring.

Change and accountability sit at the heart of this year's programme. For today's safety practitioner, the ability to demonstrate impact – in the boardroom, on the ground and across the supply chain - has never been more important. Our sessions reflect this challenge, tackling the issues that matter most to the profession right now.

Our industry partners are integral to the event and deliver outstanding education and content throughout the show. The IOSH One-Day Conference offers a focused day of expert-led insight, while NEBOSH Live brings together some of the most respected voices in occupational safety and health. The HSE Experience gives visitors direct access to the Health & Safety Executive, and the PPE Forum – curated by industry specialists and powered by Workwear Solutions International – provides a dedicated platform for improving PPE and RPE decision-making across UK industry.

Fire safety takes centre stage in two dedicated spaces: the Fire Safety Live conference programme and the Golden Thread Conference, which explores lifecycle accountability and building safety governance – essential content for anyone working within the scope of the Building Safety Act. The Fire & Safety Innovation Hub, in partnership with Safelincs, offers live demonstrations and expert advice on the latest fire and safety solutions.

Across the exhibition floor, the Safety Solutions Theatre showcases exhibitor-led content addressing real-world challenges, while the IOSH Insights Hub and Height Safety Demonstration Zone provide further opportunities to learn and engage practically.

My thanks go to our speakers, event partners, Advisory Board, sponsors and exhibitors. Their continued support enables us to deliver a free-to-attend event that provides meaningful education, practical guidance and access to the latest innovations

We are also delighted to share that Safety, Health & Wellbeing Live London will be heading to Excel London for its sixth edition in June 2027. Co-located with the new Public Protection Week, it will be the biggest and most connected edition of the show yet. We look forward to welcoming you there.

On behalf of the entire team, thank you for joining us. I hope you enjoy your time at the show.

**Daniel Gray**  
Group Commercial Director

## AI-powered EHS management, elevated results

Quentic's AI-enabled software connects your people, data, and processes in one place — so you can focus on safety, sustainability, and smarter decisions.

- ✓ Cut time on risk assessments with intelligent automation
- ✓ Stay compliant with up-to-date legal obligations and standards
- ✓ Identify hazards earlier with AI-driven data insights
- ✓ Secure ISO certification with verifiable, audit-ready evidence
- ✓ Manage EHS and ESG across every location and language

# SAFETY, HEALTH & WELLBEING LIVE

LONDON | 1-2 July 2026

# FIRE SAFETY LIVE

LONDON | 1-2 July 2026

# What's new for London 2026?

## THEATRE 1

### IOSH 1-DAY CONFERENCE

Where the OSH profession comes to think, debate and move forward.

Curated by IOSH – the world's largest professional body for health and safety – the IOSH 1-Day Conference takes place on 1 July 2026 as part of Safety, Health & Wellbeing Live London. From artificial intelligence and mental health law to human factors and generational change, the programme delivers the insight and practical direction you need to stay ahead.

Included free with your visitor pass. View the full programme on page 11.

## THEATRE 3

### PPE FORUM

The UK's dedicated PPE conference – new for London 2026.

The PPE Forum is a focused, practical conference dedicated entirely to personal protective equipment, bringing together procurement specialists, EHS managers, manufacturers and standards bodies. In a market crowded with products, the challenge isn't finding PPE – it's knowing what to trust.

Sessions are built around six core pillars:

- Regulatory and Compliance Clarity
- Procurement, Risk Assessment and Market Integrity
- Respiratory Protection
- Noise at Work and Hearing Protection
- Inclusive and Fit-for-Purpose PPE
- Innovation and the Future of PPE

Curated by Natalie Wilson, Founder and MD of Workwear Solutions International, and powered by Workwear Solutions Ltd.

View the full programme on page 11.

## THEATRE 1

### NEBOSH LIVE

A dedicated full-day programme of expert-led sessions designed for occupational safety and health professionals, taking place on 2 July 2026.

NEBOSH Live brings together leading voices from across the OSH world for a day of insight, debate and practical guidance. Whether you're navigating the rise of AI in the workplace, rethinking your approach to risk, or sharpening your leadership edge, NEBOSH Live delivers the knowledge and perspectives you need. Speakers include practitioners from the Mercedes-AMG Petronas Formula One Team, Sainsbury's and beyond.

Included free with your visitor pass. View the full programme on page 12.

## STAND 50

### FIRE SAFETY INNOVATION HUB IN ASSOCIATION WITH SAFELINCS

The Fire Safety Innovation Hub explores the future of fire safety and smart building

protection – covering Solar PV, lithium-ion battery safety, virtual buildings and intelligent asset management. Live demonstrations run alongside AI-powered technology from PointID, using LiDAR scanning to digitally map premises, asset-tag equipment and securely store critical building information for faster access and improved compliance.

## STAND H60

### SAFETY SOLUTIONS THEATRE

Practical, solution-focused sessions from leading safety suppliers – tackling real-world challenges with real-world answers.

The Safety Solutions Theatre is dedicated to showcasing products, platforms and services that solve real problems in real workplaces. From software demonstrations to implementation case studies, short, focused sessions connect you directly with the innovations making a difference on the ground. No sales pitch – just practical insight.

View the full programme on page 13.

## What have I done today to reduce RISK?

Leaders are the key to driving effective safety in the workplace. Most leaders need help to understand how best to make the positive difference, and this is where we help. We provide:

- Honest reflection and coaching
- Leadership development programs that significantly deliver a return on investment
- Help organisations to design and implement meaningful solutions that turn safety into a positive focus: new habits and routines that get buy in, enhance empowerment and grow ownership

We would love to learn about your successes and your challenges.

# Event partners

**The Health and Safety Executive (HSE)** is Britain's national regulator for workplace health and safety. We are dedicated to protecting people and places, and helping everyone lead safer and healthier lives. Our role goes beyond worker protection to include public assurance. We work to ensure people feel safe where they live, where they work and in their environment.

**IOSH** (the Institution of Occupational Safety and Health) is the world's largest Chartered membership body for health and safety professionals, offering training, qualifications, and resources to create safer workplaces.

**The National Examination Board in Occupational Safety and Health (NEBOSH)** is a leading global organisation, which provides health, safety and environmental qualifications. Our internationally recognised qualifications help to raise the competence of safety and environmental professionals as well as individuals at all levels in the workplace.

**British Safety Council** believes that no one should be injured or made ill through their work. For almost 70 years we've been a trusted guide to excellent health, safety and environmental management. Since its foundation in 1957, British Safety Council has campaigned tirelessly to protect workers from accidents, hazards and unsafe conditions, and played a decisive role in the political process that has led to adoption of landmark safety legislation in the UK.

**The International Institute of Risk and Safety Management (IIRSM)** is a UK-based professional membership organisation with a global footprint. We help individuals and organisations around the world to feel safe, supported and empowered to identify and manage risks, protecting their environments and lives.

**NASC** offers unparalleled membership benefits to scaffolding industry businesses of all types and turnovers. NASC contractor membership is also regarded by countless principal contractors, local authorities, utility providers and other organisations across the UK as a mark of quality, safety and professionalism.

**IRATA International, the Industrial Rope Access Trade Association**, is the leading global authority on industrial rope access. Through rigorous auditing of rope access safety standards for member organisations and an industry-leading training framework delivered by their audited Training Members, IRATA upholds the highest levels of safety in the working-at-height industry. Their work continues to highlight the operational and competitive advantages of rope access.

# Event partners

**BSI (British Standards Institution)** is the business standards company that equips businesses with the necessary solutions to turn standards of best practice into habits of excellence. We work with over 65,000 clients in 150 countries worldwide to help them adopt and cultivate the habits of best practice.

**Agora Business Publications** helps companies in the UK implement legal requirements safely and efficiently. For over 16 years, we have provided reliable specialist information on health, safety, and employment law - well-founded, practical, and always up to date.

**HSE People** is a marketing and advertising agency supporting companies within HSE, PPE and Compliance. We are proud to provide our members with free resources to support them in their day-to-day roles and careers, keeping people, places and the planet safe. What makes HSE People different is our extensive LinkedIn network totalling over 400,000 professionals who we share content, jobs, events and much more with.

**AntiroMedia** provides compelling video and photography solutions to support organisations' ESG and HSE ambitions. We provide creative solutions backed by industry expertise and experience to ensure technical excellence and a solution that resonates and drives the desired results.

**Tomorrow's Health & Safety** is your digital magazine for the Health & Safety industry. Providing coverage on the very latest news, issues and advancements, Tomorrow's Health & Safety is the magazine to read if you want to be at the forefront of the industry.

Prior to 2008 the HSE held a list of Asbestos Training Providers known as the ATPWG (Asbestos Training Providers' Working Group). The need to raise standards of training within the asbestos industry was widely acknowledged and the formation of a trade association was suggested, which is how and why UKATA began. The inaugural meeting of UKATA was held in September, 2007 with 41 of the 50 training providers on the ATPWG list agreeing to join.

**BOHS** has strong national and international alliances with other health and safety organisations, the HSE, trade unions and business. With a multi-disciplinary membership from industry, health, education and research, we are by far the most prominent hygiene society in Europe and now form a single focal point to promote and drive forward the profession on behalf of all practitioners, regulators, academics and students.

UK Construction Excellence is our flagship magazine, which showcases the best of British building, high-end projects, construction suppliers and influential construction companies.

**Agora Business Publications J30**

[skillsforwork.com/health-safety](https://skillsforwork.com/health-safety)

In today's fast-paced world, you need efficient solutions that simplify training and ensure compliance without overloading your team. skillsforwork | Health & Safety is your all-in-one platform for managing, scheduling, and tracking employee training across core health and safety topics. With over 16 years of experience in helping UK organisations with independent advice and support, you can rest assured that our subject expertise will keep your company and employees safe through legally compliant training and e-Learning courses.

**Air Quality Limited H22**

[airqualitylimited.co.uk](https://airqualitylimited.co.uk)

Breathing air & environmental air testing specialist. Suppliers of RPE and air filtration. Specialising in the onsite testing of breathing air quality & environmental air. Our services help your business comply with current legislation and can cure air quality problems, relating to the quality of compressed air and environmental air. We pride ourselves on providing an excellent level of service with a combined 35 years experience in the field, throughout the UK to both large and small companies with many different needs.

**Assured Fire Safety Consultancy Ltd G75**

[assuredfds.com](https://assuredfds.com)

Assured Fire Safety Consultancy Ltd is a leading independent UK fire safety consultancy helping organisations stay compliant, reduce risk, and protect what matters most. We deliver expert Fire Risk Assessments, Fire Door Inspections, Fire Engineering and Fire Strategy solutions, backed by practical training and compliance support – giving you clear, confident control over fire safety across your buildings.

**Atlas Safety Shoes C39**

[atlasschuhe.de](https://atlasschuhe.de)

ATLAS is one of the leading manufacturers of safety shoes in Europe. ATLAS has been producing high quality and innovative safety shoes since the company was founded in 1910. At the modern production site in Dortmund 2.7 million pairs of safety shoes are produced every year and shipped throughout Europe. Behind all this is a dedicated team of over 1,450 employees. Personal Protective Equipment ensuring the correct filtration for clean pure breathing air quality. Our aim as a professional company is to provide a personal trouble free service for all of our clients.

**BB&A C30**

[bbanda.co.uk](https://bbanda.co.uk)

We support global organisations to build high-reliability safety cultures that prevent harm. Our approach to culture change is based on embedding safety into everyday conversations so that safe thinking and behaviour become habitual. At the heart of our methodology is the belief that culture is shaped by the conversations people have and the decisions they make. Our work ensures that health and safety is considered alongside cost, quality and productivity in every discussion, decision and action, by leaders and frontline colleagues alike. To achieve this, we bring together a unique blend of strategic insight, behavioural psychology, communication, learning and creative expertise.

**Betknowmore UK A32**

[betknowmoreuk.org](https://betknowmoreuk.org)

At Betknowmore UK, we work tirelessly to raise awareness, deliver support services and, through education, create more understanding about gambling harms. 'We want people to be empowered to live the life they want to lead'.

**British Red Cross C62**

[redcrossfirstaidtraining.co.uk](http://redcrossfirstaidtraining.co.uk)

With more than 40 years of experience, working with companies of all sizes across a range of industries, Red Cross Training is renowned for providing expert first aid training. Our interactive courses provide the practical skills and confidence needed to help save lives when an accident strikes. From first aid to mental health at work, all Red Cross training courses are clinically accurate and educationally sound. Red Cross Training is ISO 9001:2015 certified for the design and provision of first aid courses which are based on the latest science, and are continually reviewed and evaluated. Pairing this science with our practical approach allows us to train your staff thoroughly and effectively.

**BSI Training Academy G40, G38**

[bsigroup.com/en-GB/our-expertise](http://bsigroup.com/en-GB/our-expertise)

BSI (British Standards Institution) is a global leader in standards, assurance, and certification, helping organizations build trust, improve performance, and drive sustainable growth. In the field of health, safety, and well-being, BSI supports organizations in creating safer, healthier workplaces through internationally recognized standards such as ISO 45001 (Occupational Health & Safety) and ISO 45003 (Psychological Health & Safety). By combining expertise, best practice, and practical solutions, BSI empowers businesses to protect their people, enhance well-being, and build resilient, high-performing cultures.

**Bureau Veritas G70**

[bureauveritas.co.uk](http://bureauveritas.co.uk)

Bureau Veritas has the experience, know-how and professional expertise to improve your productivity and performance; helping you to reduce your risks and build a responsible, safe and sustainable business. As a global leader in Testing, Inspection, Certification and Consultancy services across all sectors, Bureau Veritas is recognised worldwide for excellence and innovation. We serve more than 400,000 companies, delivering a wide range of solutions that go beyond compliance to enable growth.

**CIRES G72**

[cires-safe.com](http://cires-safe.com)

Cires Group is a UK manufacturer of specialist respiratory protection equipment, built for high-risk industrial and healthcare environments where standard solutions are not enough. Our flagship product, the AirMask 1000, is a powered air-purifying respirator (PAPR) certified to EN 12941 TH3. Weighing under 500g with the power unit worn around the neck, it removes the hose, removes the harness, and works with facial hair. No fit testing required. Visit us at the Safety, Health and Wellbeing Live show to see the AirMask 1000 in person and talk to our team about the respiratory hazards your workforce faces, whether that is silica dust, asbestos, welding fumes, chemical vapours, biological risks and everything in between.

**Cirrus Research plc B21**

[cirrusresearch.com](http://cirrusresearch.com)

Cirrus Research, your experts in noise and vibration measurement. Our vision is to stop people from going deaf by providing a range of easy-to-use instruments designed for Health & Safety Officers to prevent workplace hearing loss. Talk to us about sound level meters, noise dosimeters, noise-activated signage. You can also talk to us about hand-arm vibration and whole-body vibration measurement.

**Comply Sense G50**

[complysense.co.uk](http://complysense.co.uk)

At Comply Sense, we believe safety training should do more than tick a box – it should inspire confidence, change behaviours and save lives and for this we supply 3 of the best pieces of training technologies available to train with us or purchase for your own training. We are an innovative health, safety and training provider, combining expert compliance support with cutting-edge Virtual Reality (VR) technology to create immersive learning experiences that people genuinely remember. From first aid and fire safety to mental health, risk assessment and health & safety training, we deliver accredited programmes that engage learners and drive real-world results.

**EFA Emotional First Aid****H30**[emotional-firstaid.co.uk](http://emotional-firstaid.co.uk)

The Health and Safety Executive are clear that all employers must take proactive and preventative steps to support emotional wellbeing in the workplace. Emotional First Aid does just that. It is training that focuses on self-care, giving people the knowledge, skills and awareness that can equip them to look after their emotional wellbeing. Offering a range of training options for employers, Emotional First Aid is a celebration of human capacity, focusing on what people can do, as opposed to a focus on what is wrong with people.

**EHSwise****D38**[kianda.com](http://kianda.com)

EHSwise is a leading Environmental, Health & Safety software that empowers EHS leaders to capture and manage Health & Safety records in one easy-to-use system, creating a safer workplace while ensuring compliance. User-friendly and configurable EHSwise offers core Health and Safety functions such as Risk Assessment, Incident/Accident Reporting, Audit Management, Observation Reporting, Inspection, Actions, Subcontractor Management, Inductions, Permit to Work, Safety Kiosk and more, helping you improve safety engagement, manage risks and drive efficiency.

**Evac + Chair International****C60**[evacchair.co.uk](http://evacchair.co.uk)

Evac+Chair is the original manufacturer and global leader in emergency evacuation chairs. With over 40 years experience in the design and manufacture of evacuation chairs, we're relied upon in emergency situations to assist in saving people's lives. With a range of accreditations, our product quality is superior to other means-of-escape.

**Express Medicals****D10**[expressmedicals.co.uk](http://expressmedicals.co.uk)

Express Medicals is a leading provider of Occupational Health and Drug & Alcohol testing services, specialising in safety-critical industries. Backed by 30 years' experience, we deliver fast, convenient and flexible access to occupational health support across our 18 clinics nationwide.

**Firefly****H34**[firefly.se](http://firefly.se)

Firefly is a Swedish corporate group that provides industrial fire prevention and protection systems to the process industry worldwide. Since 1973, Firefly has specialized in creating customized system solutions of the highest technical standards and quality. Based on customer needs and research, Firefly has developed and patented products and solutions, creating a unique portfolio of innovative products and system solutions to increase the level of safety. The company is represented worldwide and conducts sales directly to customers and via distributors in over 90 countries.

**Fleet Operations****E21**[fleetoperations.co.uk](http://fleetoperations.co.uk)

Fleet Operations is the UK's largest independent, award-winning fleet and mobility management company, providing a comprehensive range of tailored fleet management solutions to corporate and international clients. We help businesses make long-term cost savings on their fleet portfolios, while mitigating risk and helping them meet their sustainability targets. Our fully integrated risk management service proactively reduces driver risk through DVLA-verified licence checks, behavioural risk assessments and tailored training, all delivered via our driver app and web portal. Through our range of services, we can build a comprehensive overview of driver behaviour and how this impacts on fulfilment of their core role objectives.

**Golden Fred**

**F72**

[goldenfred.com](http://goldenfred.com)

Golden Fred is the compliance platform built for UK fire safety contractors working under the Building Safety Act 2022. We capture installation evidence at the point of work, link it directly to the project's Golden Thread, and produce an audit-ready handover pack in seconds. The platform replaces the spreadsheets, dropboxes, and disconnected job sheets that fail under BSR scrutiny on Higher-Risk Buildings. At SHW Live London we launch the full platform to the UK fire safety community, including Golden Fred Field, our new iPad and iPhone app for engineers and installers, plus a stand preview of Ask Fred AI, our forthcoming compliance assistant. Visit stand F72 to watch a Building Safety Act handover pack produced live in 60 seconds. Bring your toughest compliance scenario, a real project, or your worst Golden Thread headache, and we will run it through the platform in front of you. Founding Customer Programme rates close 31 July 2026.

**HAVSco Limited**

**C22**

[havsco.co.uk](http://havsco.co.uk)

HAVSco Ltd, developed and supplies The HAVSense system, which is the first personal meter to measure and record the actual vibration exposure from any tool, process or task. No programming between different tools, just simple exposure data. See us on stand C51, or contact us for a free HAVs presentation at your location: 01692 400 635.

**Havspro**

**B57**

[havspro.com](http://havspro.com)

At HAVSPRO, we're on a mission to #MAKEHAVSHISTORY. Our innovative HAVSPRO system provides a complete solution for monitoring and managing workplace vibration risks, helping organisations protect their people, maintain compliance, and make informed safety decisions. HAVSPRO combines rugged tool-mounted sensors with our powerful reporting platform, HAVSPRO Insights, to deliver real-time, accurate vibration exposure data. This isn't just another spreadsheet – it's a decision-making tool that empowers health & safety teams to identify high-risk activities, optimise processes, and reduce Hand-Arm Vibration Syndrome (HAVS) and Whole Body vibration (WBV) cases.

**HC Slingsby**

**B29**

[slingsby.com](http://slingsby.com)

Slingsby is one of the UK's market leaders in the distance selling of industrial and commercial equipment. We offer over 45,000 high-quality products to accommodate all workplace needs, from handling and lifting to on-site equipment and office supplies. With over 130 years of experience in the industry, we are always committed to providing outstanding service and efficient delivery.

**HEALTHCHECK SERVICES LIMITED**

**C56**

[healthcheckservices.co.uk](http://healthcheckservices.co.uk)

Healthcheck Services Ltd is a UK-based provider of non-invasive health monitoring solutions that promote wellbeing in the workplace, leisure and community centres, and public venues. We specialise in delivering convenient, reliable health kiosks that support preventative healthcare and long-term health. Our comprehensive checks include blood pressure monitoring, BMI and body composition analysis, height, weight and wellness tracking. Our easy-to-use health kiosks and on-site screenings provide instant results, helping individuals understand their current health status and make informed choices for a healthier lifestyle.

**Height Lift & Shift Ltd**

**D69**

[hls.co](http://hls.co)

HLS is a specialist provider of access platforms for safe and compliant working at height, available for hire, long-term lease or sale. We'll help you comply with industry regulations, understand best practices and deliver a culture of safety throughout your organisation

**HSE**

**F42**

[hse.gov.uk/products](http://hse.gov.uk/products)

The Health and Safety Executive (HSE) is Britain's national regulator for workplace health and safety. We are dedicated to protecting people and places, and helping everyone lead safer and healthier lives. Join us on our stand to meet HSE inspectors, technical specialists and product experts. There will be the chance to learn more about the solutions available from HSE to help you protect your colleagues and workplaces – including training, books and tools, testing and consultancy services. Our mini-theatre will be running a series of topic-focussed seminars throughout the event, with subjects including accident/incident reporting and investigation, creating a positive health and safety culture, machinery risk assessment and control, musculoskeletal disorders, work-related stress, training and competence.

**iHasco**

**D80**

[ihasco.co.uk](http://ihasco.co.uk)

Need workplace training? Of course you do! And we know you want the best for your employees. Whether you're looking to cover areas of Health & Safety, HR & Business Compliance, Soft Skills, or Management, our library of over 250 accredited e-learning courses has you covered. We're ready when you are.

**IIRSM****B20**[iirsm.org](http://iirsm.org)

The International Institute of Risk & Safety Management (IIRSM) is a UK-based professional membership organisation with a global footprint.

We help individuals and organisations around the world to feel safe, supported and empowered to identify and manage risks, protecting their environments and lives. We aim to drive the holistic evolution of risk management in organisations, educating and protecting their people through our unique communities. We work together – providing training, knowledge sharing and networks – to support the competence of risk and safety professionals.

**Infield Safety UK****E29**[infield-safety.co.uk](http://infield-safety.co.uk)

Infield Safety Solutions for your protection! Infield Safety is a manufacturer of innovative, high-quality safety glasses. Since its inception in the 1990's Infield Safety specialises in protective vision care within the workplace. Infield Safety is a member of the EssilorLuxottica Group, the world-market leader for lenses and frames. In 631 production facilities worldwide, over 190,000 employees develop a wide range of products to support, protect and correct the human eye.

**International Gas Detectors****C20**[internationalgasdetectors.com](http://internationalgasdetectors.com)

International Gas Detectors design, manufacture and sell fixed and portable gas detection systems for over 700 gases and vapours at our purpose-built facility in Stockport, UK. Total control of the manufacturing process means total control of the delivered product, so you can relax in the knowledge that we have you covered. From our controllers to our detectors, accessories and PCB components, everything is manufactured in-house and powered by our Sentinel+ Addressable system, so that we can guarantee you the level of quality that our customers have come to expect of us, taking care of the entire process from consultation to installation to aftercare. Our story began in 1917 when Henry Ringrose founded the world's first gas detection company. More than a century later, our goal remains the same: to keep you safe by continuously improving our pioneering technology. Getting gas detection isn't a choice. Who you get it from is.

**IOSH****B40**[iosh.com](http://iosh.com)

The Institution of Occupational Safety and Health (IOSH) is the world's largest professional body for safety and health, and the only one with Chartered status. We've been around since 1945, and today we're a registered charity with international NGO status. That means we're in a unique position to lead the way: shaping policy, championing positive change, and standing up for everyone's right to a safe and healthy workplace. With a global community of 50,000 members, spread across 130 countries, together, we share one vision: a world where work is safe and healthy for all.

Through the work of our members, and our qualifications and training, we provide the skills, knowledge, and expertise needed to keep people and workplaces safe - and businesses and economies thriving.

**IRATA International****G52**[irata.org](http://irata.org)

IRATA International, the Industrial Rope Access Trade Association, is the leading global authority on industrial rope access. Through rigorous auditing of rope access safety standards for member organisations and an industry-leading training framework delivered by their audited Training Members, IRATA upholds the highest levels of safety in the working-at-height industry. Their work continues to highlight the operational and competitive advantages of rope access. IRATA has over 860 member companies worldwide and more than 135,000 IRATA-qualified technicians working across multiple international sectors. Committed to safety, quality, and continuous learning, IRATA supports rope access professionals around the world by providing open access to key publications such as their International Code of Practice (ICOP) and the IRATA Training, Assessment and Certification Scheme (TACS) to promote knowledge sharing and consistent best practices across the industry. Working closely with regulators, legislators, and industry stakeholders, IRATA continues to set and uphold the highest standards in rope access. Their global programme of technical events, seminars, and training resources helps professionals stay informed, skilled, and safe.

**Keyzo****D35**[keyzo.co.uk](http://keyzo.co.uk)

At Keyzo, we create intuitive, software that helps organisations streamline manual processes, strengthen workforce compliance and improve visibility of contractors across multiple sites. Our platforms combine induction, training, policy sign-off and certifications into a single, easy-to-use system. That means teams can manage essential workflows with clarity and confidence, giving health, safety, compliance and HR professionals better visibility and control. Induct & Train enables you to deliver inductions and training online for employees, contractors and visitors. With automated workflows and permit control, teams can ensure only qualified people are allowed on site. Read & Sign simplifies how policies, procedures and safety updates are shared and acknowledged. Track completions in real time and generate instant reports so you always know who has read and understood critical information. Contact our team before SHW Live London at [info@keyzo.co.uk](mailto:info@keyzo.co.uk), or visit us on the day to learn how organisations use our systems in practice.

**Kitt Medical****C52**[kittmedical.com](http://kittmedical.com)

Life-saving adrenaline pens + allergy training service, for schools & businesses.

**MoreCPD**

**B71**

[morecpd.com](http://morecpd.com)

At MoreCPD, we help organisations move beyond simply buying training courses. Our learning platform enables businesses to deliver accredited training, manage compliance, track learner progress, issue certificates, and create bespoke learning pathways for their workforce. Whether you need Mental Health First Aid training, health and safety compliance, safeguarding, leadership development, or a fully branded learning environment, MoreCPD provides the technology, content, and support to make workplace learning simple and effective.

**Musgrove & Ball**

**Phoenix Health & Safety**

**E60**

[phoenixhsc.co.uk](http://phoenixhsc.co.uk)

Phoenix is the UK's leading health and safety capability partner. For more than 20 years, organisations have trusted Phoenix to develop the competence that sits behind safe, effective and resilient organisations. Because capability is about more than qualifications alone. When organisations face scrutiny, they are rarely judged by the certificates on the wall. They are judged by the decisions their people make, the risks they understand, and whether their systems work when it matters most. That's why Phoenix combines training, consultancy and technology to help organisations build competence at every level. From developing future health and safety professionals to strengthening organisational capability, Phoenix helps organisations move beyond compliance and build confidence in their ability to make better decisions under pressure. Trusted by thousands of organisations and professionals across the UK, Phoenix exists to build the competence behind every safety decision. Because compliance may be expected, but capability is what gets tested.

**Portwest**

**E20**

[portwest.com](http://portwest.com)

Portwest is a global manufacturer and innovator of workwear, safety wear and PPE. Established in 1904, Portwest today has a global distribution network and customer service staff in over 130 countries. The company is a family-owned business and continues to be managed by the 3rd generation of the Hughes Family and since 2015 the 4th generation of the family have joined the business. Innovative production and design by an in-house team of experts lies at the heart of the Portwest advantage.

**Pristine Condition**

**C32**

[pristinecondition.com](http://pristinecondition.com)

For the first time ever, Pristine Condition brings Olympic weightlifting technique to industry with a practical, hands-on approach to manual handling, delivering unprecedented results. Historically, training has been too general, filled with myths and fallacies, and not task-specific. We demonstrate the practical application of correct manual handling technique, bespoke to the tasks and materials that you use on a daily basis. Delivered in a fun and engaging style, our training is realistic and achievable, gaining buy-in from your staff, who can immediately feel the difference. Recognised at the highest level of government for our contribution to the reduction of accidents across industry, we have a proven track record, with many clients achieving a 100% reduction. Our methodologies are scientifically proven to deliver outstanding results. During an independent biomechanics study with Tesco Distribution, Pristine Condition's manual handling training was proven to reduce risk factors for injury by up to 94% and reduce muscle demand by up to 73%. Today, we are proud to be considered world leaders in manual handling solutions, providing a multi-element approach to this long-standing workplace issue.

**Proactive Safety Leadership**

**B35**

[proactive-sl.co.uk](http://proactive-sl.co.uk)

PSL supports client organisations with the development of leaders, and potential leaders, within the context of health, safety and wellbeing. Better leaders and safer, more adaptable and resilient leaders. Developing these traits ensure organisations are both safety places to work and more profitable as a result. While we can provide qualifications, we prefer to provide bespoke development programs that add value to your organisations rather than being something taken off the shelf with limited relevance. That said, we are a CMI Centre which means we can provide qualifications and we have the option to make bespoke programs accredited as a result. We also provide assessment of people (Competence based assessments) and organisations (Culture of Safety, Trust, Adaptability and many more). We help our clients embed change too. If you need to implement a new policy on Isolation of Energy Sources, or a new approach to managing workplace transport, we can help with assessing the needs, and coaching / guiding the organisation through the change. Our 'Leadership in Action' methodology supports organisations through embedding new habits that enhance a focus on health, safety and wellbeing. We have worked with some of the top FTSE 100 companies in significantly improving their organisations.

**Procheck**

**F33**

[procheck.co.uk](http://procheck.co.uk)
