# WELCOME TO SAFETY, HEALTH & WELLBEING LIVE AND FIRE SAFETY LIVE MANCHESTER

Welcome to Safety, Health & Wellbeing Live and Fire Safety Live Manchester 2026. It is a pleasure to welcome you to your safe space for navigating the health and safety landscape.

Across two packed days, the event brings together health & safety and fire safety professionals from across the North of England. Designed to support a profession that continues to evolve, the show provides the opportunity to learn, share best practice, explore solutions and reconnect with the community that underpins our industry. Whether you are here to gain CPD, stay ahead of emerging risks or source new suppliers, we hope you find the experience both valuable and inspiring.

Change sits at the heart of this year's conference programme. For today's safety practitioner, responding to change is fundamental, and our sessions are framed around the principles of VUCA – volatility, uncertainty, complexity and ambiguity. Through this lens, speakers will explore the challenges facing the profession, offering practical insight and guidance to help you navigate an increasingly complex landscape.

Our industry partners are integral to the event and deliver outstanding education and content throughout the show. Alongside the main conference stages, dedicated programmes can be found in the IOSH Communities Theatre, the NEBOSH Discovery Hub

and the Health & Safety Executive Mini Theatre, providing focused discussion and expert-led insight.

The exhibition floor offers further opportunities to learn and engage. The exhibitor-led Tech Talks theatre presents solutions to real-world safety challenges, while practical demonstrations take place across the show, including the Height Safety Demo and the Lithium-ION Battery Safety Hub, addressing two significant and current risk areas. Fire Safety Live also returns with its own focused conference sessions, suppliers and expertise dedicated to fire prevention, protection and compliance.

My thanks go to our speakers, event partners, Advisory Board, sponsors and exhibitors. Their continued support enables us to deliver a free-to-attend event that provides meaningful education, practical guidance and access to the latest innovations.

On behalf of the entire team, thank you for joining us, and I hope you enjoy your time at the show.

**Daniel Gray**  
Event Director  
Safety, Health & Wellbeing Live Manchester 2026

P.S. We return to Olympia London on 1-2 July 2026. Visit the Sales / Organisers' Office to find out how you can get involved.

# FLOORPLAN

**FIRE SAFETY LIVE**

MANCHESTER | 10-11 February 2026

# WHAT'S NEW FOR 2026?

## IOSH COMMUNITIES THEATRE THEATRE 2

Across two days of CPD-accredited content, delegates will experience a rich programme of keynotes, panel debates, technical sessions and interactive discussions led by industry leaders, technical experts and members of the IOSH Presidential Team.

Designed to be inclusive and relevant to practitioners from all sectors, the sessions will tackle the most urgent issues facing the profession, from climate-related risks and technology adoption to evolving regulation and workforce expectations. The theatre will be open to everyone at the event and will focus on variety of themes, including:

- **Environmental Waste Management**
- **Railway, Health & Social Care**
- **Future Leaders Community**
- **Construction**
- **Fire Risk Management**

## NEBOSH DISCOVERY HUB D60

This dynamic area has been designed to inspire, educate, and connect the health and safety community. Safety practitioners will have the opportunity to experience expert-led sessions that offer practical insights, real-world learning, and a first-hand look at the high-quality training NEBOSH educators and partners provide – helping practitioners expand their knowledge and explore potential professional development pathways.

The Discovery Hub will also host a dedicated NEBOSH Alumni networking session, providing past and current learners with a space to meet, share experiences, and build meaningful professional relationships.

In partnership with

## LITHIUM-ION BATTERY FIRE SAFETY HUB H10

Discover how to mitigate lithium-ion battery fires and what tools are available to prevent and control fires of this type. Catch a live product demo that will take you through the

latest solutions on the market or speak to the team of experts to discuss your specific risks.

- **11am – Live Demonstration** – Live walk-through of the risk, the technologies available and suggestions for how to implement these technologies in different sectors or scenarios.
- **1pm – Insight Hub** – Come and share your experiences and find out about what others are doing to mitigate this risk.
- **2.30pm – Live Demonstration** – Live walk-through of the risk, the technologies available and suggestions for how to implement these technologies in different sectors or scenarios.

## NEW CONFERENCE STREAMS FOR 2026

### WELLBEING 2.0

Sponsored by

**SESSION SPOTLIGHT:** Marcus Long, Chief Executive at the IIOA discusses BS 30480, a new standard on suicide awareness in the workplace.

### THE NEW RISKS

Sponsored by

**SESSION SPOTLIGHT:** Matt Hall, Associate Director of Health, Safety and Working Environment at Imperial College Healthcare NHS Trust, discusses frontline worker safety in the NHS.

### YES, BUT WHAT'S THE ROI?

Sponsored by

**SESSION SPOTLIGHT:** Hear from Karen Hewitt at Leaderlike on the power of storytelling as a communication tool in the boardroom.

### AI, DATA AND ADOPTION

Sponsored by

**SESSION SPOTLIGHT:** Hear from Karl Simons OBE as he discusses his work with FYLD, an AI-powered fieldwork execution programme, and how AI technology can enhance safety.

### LEGISLATION, REGULATION AND COMPLIANCE

Sponsored by

**SESSION SPOTLIGHT:** Hear from health and safety barrister Laura Thomas on internal incident investigations.

### THE FUTURE PROFESSION

Sponsored by

**SESSION SPOTLIGHT:** Hear from Keith Hole on stakeholder engagement through Johari's window, a psychological model for improving self-awareness and understanding relationships.

### FIRE SAFETY

Sponsored by

**SESSION SPOTLIGHT:** Hear from Sheren Rose at PB Safety Consultancy on what's working well and what needs improvement in involving residents when it comes to fire safety.

## WORKING AT HEIGHT DEMO

Gain invaluable insights from industry leaders, witness live demonstrations, and explore the latest innovations in height safety. Learn practical steps to enhance workplace safety and prevent falls.

# INDUSTRY SUPPORT

## EVENT PARTNERS

The Health and Safety Executive (HSE) is Britain's national regulator for workplace health and safety. We are dedicated to protecting people and places, and helping everyone lead safer and healthier lives.

Our role goes beyond worker protection to include public assurance. We work to ensure people feel safe where they live, where they work and in their environment.

IOSH (the Institution of Occupational Safety and Health) is the world's largest Chartered membership body for health and safety professionals, offering training, qualifications, and resources to create safer workplaces.

The National Examination Board in Occupational Safety and Health (NEBOSH) is a leading global organisation, which provides health, safety and environmental qualifications. Our internationally recognised qualifications help to raise the competence of safety and environmental professionals as well as individuals at all levels in the workplace.

British Safety Council believes that no one should be injured or made ill through their work.

For over sixty years we've been a trusted guide to excellent health, safety and environmental management. Since its foundation in 1957, British Safety Council has campaigned tirelessly to protect workers from accidents, hazards and unsafe conditions, and played a decisive role in the political process that has led to adoption of landmark safety legislation in the UK.

HSM covers the latest news, prosecutions, case studies, regulations, standards, products, services and technology relating to OSH.

HSM is a media partner for Safety, Health & Wellbeing Live and has a database of more than 50,000 OSH practitioners. Our website is also home to CPD-accredited podcasts and webinars.

The International Institute of Risk and Safety Management (IIRSM) is a UK-based professional membership organisation with a global footprint.

We help individuals and organisations around the world to feel safe, supported and empowered to identify and manage risks, protecting their environments and lives.

NASC offers unparalleled membership benefits to scaffolding industry businesses of all types and turnovers.

NASC contractor membership is also regarded by countless principal contractors, local authorities, utility providers and other organisations across the UK as a mark of quality, safety and professionalism.

The No Falls Foundation, in partnership with stakeholders such as the Access Industry Forum (AIF), other trade associations and professional bodies committed to advancing health and safety, has three distinct objectives: To help keep people safe by creating greater awareness and understanding of the risks associated with working at height.

Tomorrow's Health & Safety is your digital magazine for the Health & Safety industry. Providing coverage on the very latest news, issues and advancements, Tomorrow's Health & Safety is the magazine to read if you want to be at the forefront of the industry.

The Institute of Occupational Medicine (IOM) was founded as a research charity in 1969 by the National Coal Board, primarily to complete ground-breaking research on lung disease in coal mine workers. However, our scope of work developed and ergonomic factors advanced, and ultimately we established a mission to reduce health and safety risks in the industry.

Prior to 2008 the HSE held a list of Asbestos Training Providers known as the ATPWG (Asbestos Training Providers' Working Group). The need to raise standards of training within the asbestos industry was widely acknowledged and the formation of a trade association was suggested, which is how and why UKATA began. The inaugural meeting of UKATA was held in September, 2007 with 41 of the 50 training providers on the ATPWG list agreeing to join.

BOHS has strong national and international alliances with other health and safety organisations, the HSE, trade unions and business. With a multi-disciplinary membership from industry, health, education and research, we are by far the most prominent hygiene society in Europe and now form a single focal point to promote and drive forward the profession on behalf of all practitioners, regulators, academics and students.

UK Construction Excellence is our flagship magazine, which showcases the best of British building, high-end projects, construction suppliers and influential construction companies.

The International Powered Access Federation (IPAF) promotes and enables the safe and effective use of powered access equipment worldwide in the widest sense – through providing technical advice and information; by influencing and interpreting legislation and standards; and via its safety initiatives and training programmes.

Agora Business Publications helps companies in the UK implement legal requirements safely and efficiently. For over 16 years, we have provided reliable specialist information on health, safety, and employment law – well-founded, practical, and always up to date.

BSI (British Standards Institution) is the business standards company that equips businesses with the necessary solutions to turn standards of best practice into habits of excellence. We work with over 65,000 clients in 150 countries worldwide to help them adopt and cultivate the habits of best practice.

**7 Solutions****D8**<https://www.7solutions.co.uk>

7 Solutions is a UK-wide specialist in gas detection, air quality, noise and heat-stress monitoring, with over 20 years' experience. We provide independent advice, supply and service portable and fixed detection systems, offer training and on-site support, and tailor purchase, rental or lease solutions to protect workforces nationwide.

**Blackline Safety****C38**<https://www.blacklinesafety.com/>

Blackline Safety is a technology leader driving innovation in the industrial workforce through IoT. With connected safety devices and predictive analytics, Blackline enables companies to drive towards zero safety incidents and improved operational performance. Blackline provides wearable devices, personal and area gas monitoring, cloud-connected software and data analytics to meet demanding safety challenges and enhance overall productivity for organisations with customers in more than 75 countries. Armed with cellular and satellite connectivity, Blackline provides a lifeline to tens of thousands of people, having reported over 300 billion data-points and initiated over eight million emergency alerts.

**Agora Business Publications****C17**<https://www.skillsforwork.com/>

The skillsforwork | Health and Safety platform is an All-In-One online Health & Safety Training and Learning Management platform solution. You can schedule, organise and monitor your employee training across your core Health & Safety Topics. All training and courses across the platform are CPD accredited. The skillsforwork health and safety learning management system can help your organisation to: Save time and streamline admin & schedule, track and report training all in one place with our efficient and user-friendly platform. Your Training Matrix is also all automated within the platform.

**BRADY****D19**<https://www.bradyeurope.com>

Managing safety risks to prevent workplace accidents from happening is both a humane and an economically sound strategy to protect or even improve company profitability. Every workplace accident generates cost, and potentially includes a severe human toll that impacts morale and productivity. Brady Corporation provides a wide range of solutions to increase workplace safety and accident prevention, including Lockout/Tagout, pipe marking, floor marking, safety signs, visual tagging and spill control.

**Antiro Media****C35**<https://www.antiromedia.com/>

AntiroMedia provides compelling video and photography solutions to support organisations' ESG and HSE ambitions. We provide creative solutions backed by industry expertise and experience to ensure technical excellence and a solution that resonates and drives the desired results.

**Bull Products****B20**<https://www.bullproducts.co.uk/en-gb/>

Bull Products is an independently owned UK manufacturer and distributor of construction fire safety solutions. Its Made in Britain alarm systems—SITENET, SITEPROTECT and SITEVAC+—support diverse site needs. Through its Fire 360° methodology and BAFE-certified accreditations, Bull Products delivers compliant, sustainable, end-to-end fire protection trusted across the construction sector.

**Assured Fire Safety Consultancy Ltd****C15**<https://www.assuredfds.com/>

Assured Fire Safety Consultancy Ltd is a leading independent UK fire safety consultancy helping organisations stay compliant, reduce risk, and protect what matters most. We deliver expert Fire Risk Assessments, Fire Door Inspections, Fire Engineering and Fire Strategy solutions, backed by practical training and compliance support, giving you clear, confident control over fire safety across your buildings.

**Bureau Veritas****C20**<https://www.bureauveritas.co.uk/>

Bureau Veritas has the experience, know-how and professional expertise to improve your productivity and performance; helping you to reduce your risks and build a responsible, safe and sustainable business. As a global leader in Testing, Inspection, Certification and Consultancy services across all sectors, Bureau Veritas is recognised worldwide for excellence and innovation. We serve more than 400,000 companies, delivering a wide range of solutions that go beyond compliance to enable growth.

**Atlas Safety Shoes****B25**<https://www.atlasschuhe.de>

ATLAS is one of the leading manufacturers of safety shoes in Europe. ATLAS has been producing high quality and innovative safety shoes since the company was founded in 1910. At the modern production site in Dortmund 2.7 million pairs of safety shoes are produced every year and shipped throughout Europe. Behind all this is a dedicated team of over 1,450 employees.

**Cereviva****A25**<https://cereviva.com>

At Cereviva, we believe safer workplaces begin with the brain. Our name blends cerebral and viva - symbolising the power of human cognition combined with the vitality of life. We harness cutting-edge neuroscience to transform the way organisations understand risk, make decisions, and embed safety at every level. Headquartered in Paris and servicing clients worldwide, we specialise in neuroscience-based safety consulting, training, and practical solutions that go beyond compliance. By aligning cognitive science with workplace practices, we help businesses reduce incidents, improve performance, and build resilient safety cultures.

# From observation to action powered by AI

**Intelligent EHS software designed for proactive risk management**

HSI Donesafe is an intuitive, simple-to-use EHS management platform that brings incidents, audits, compliance and more into one system, with AI-powered image hazard recognition built in.

Designed to scale with your business needs, it combines configurable modules, intelligent workflows and automated alerts to support faster decisions, reduce repeat incidents and strengthen safety performance.

**Because managing risk should not start after the incident.**

**Scan the QR code to book a demo.**

**Visit us at  
Stand E33**

**SAFETY, HEALTH/  
& WELLBEING LIVE**  
MANCHESTER | 10-11 February 2026

**Cirrus Research plc****E64**<https://cirrusresearch.com/>

Cirrus Research, your experts in noise and vibration measurement. Our vision is to stop people from going deaf by providing a range of easy-to-use instruments designed for Health & Safety Officers to prevent workplace hearing loss. Talk to us about sound level meters, noise dosimeters, noise-activated signage. You can also talk to us about hand-arm vibration and whole-body vibration measurement.

**EDC Protection****B30**<https://www.edc-protection.com/en/>

DMD FRANCE is one of the leading workwear suppliers in France specialising in Hi Vis and Technical Garments. EDC Protection is the market leader in France for PPE and Clothing to protect against extreme heat applications.

**Connected Safety Net****E18**<https://www.connectedsafety.net.co.uk/>

Connected Safety Net (CSN) is an agile Digital Factory for safety, environmental and compliance management, built to replace paper-based processes and rigid, template-driven systems. Instead of fixed modules, CSN is a no-code platform that allows organisations to design, automate and continuously evolve their own workflows without developers.

Built on Microsoft Azure, CSN includes embedded translation across 200 languages, enabling global teams to work from the same data in their own language. The result is a single, scalable system that removes paperwork, reduces administration and delivers faster, more informed decision-making.

**EFA Emotional First Aid****E10**<https://emotional-firstaid.co.uk/>

Emotional First Aid supports the creation of workplaces that are smart and supportive, with a common language for emotions and with a broad range of potential solutions. Solutions that can help to address the issues that lead to people being off work and overwhelmed by how they feel.

**DAC Beachcroft****E85**

<https://sites-dacb.vutrevx.com/152/10945/uploads/cir---she-regulatory-capability-statement---cir-she.pdf>

DAC Beachcroft's SHE lawyers believe engagement is key. Engaging with our clients and understanding their organisation and culture, we support strong and collaborative risk management, allowing people to thrive and take care in the work they do. Excelling in proactive education and strategic advice, our lawyers are involved in many leading cases, delivering representation from the moment an incident occurs throughout the criminal and coronial processes.

**EHSwise****D25**<https://www.kianda.com>

EHSwise is a leading Environmental, Health & Safety software that empowers EHS leaders to capture and manage Health & Safety records in one easy-to-use system, creating a safer workplace while ensuring compliance. User-friendly and configurable EHSwise offers core Health and Safety functions such as Risk Assessment, Incident/Accident Reporting, Audit Management, Observation Reporting, Inspection, Actions, Subcontractor Management, Inductions, Permit to Work, Safety Kiosk and more, helping you improve safety engagement, manage risks and drive efficiency. Frictionless mobile reporting, automated reminders and audit-ready insights with the most flexible Health and Safety Software.

**Davis Derby****F08**<http://www.davisderby.com>

Davis Derby are a specialist business with a reputation for robust technology, data capture, analysis and reporting that assists companies in the extraction and materials handling sectors to improve the safety, compliance and performance of their operations.

From mines and quarries to warehouses, Davis Derby is protecting people and optimising plant in potentially hazardous environments.

**Evac Chair International****D21**<https://www.evachair.co.uk/>

Evac+Chair is the original manufacturer and global leader in emergency evacuation chairs. With over 40 years experience in the design and manufacture of evacuation chairs, we're relied upon in emergency situations to assist in saving people's lives. With a range of accreditations, our product quality is superior to other means-of-escape.

**Driving for Better Business****F31**<https://www.drivingforbetterbusiness.com/>

Driving for Better Business is a free National Highways programme offering online tools and resources to evaluate practices, strengthen culture, enhance performance, and demonstrate leadership in driver safety management. Our resources include benchmarking, risk management gap analysis, a driving for work policy builder, case studies, driver toolkits, and a monthly fleet focus series.

**eviFile****F84**<https://evifile.com/>

EviFile transforms health & safety management with real-time reporting, digital workflows, and full audit trails ensuring compliance, boosting efficiency, and reducing risk across projects. Trusted by industry leaders for secure, scalable, and smart site data management.

**First2HelpYou****C52**<https://www.first2helpyou.co.uk>

First2HelpYou provides BS8484 accredited lone worker safety solutions, with every emphasis placed on service provision. Our product portfolio comprises the First2HelpYou KIT+ device, ID Badge device, wearable technologies and phone applications for Android and iOS. All products are supported by our online management portal 'Connect'.

**HAVSco Limited****C51**<https://havsco.co.uk/>

HAVSco Ltd, developed and supplies The HAVSense system, which is the first personal meter to measure and record the actual vibration exposure from any tool, process or task. No programming between different tools, just simple exposure data. See us on stand C51, or contact us for a free HAVs presentation at your location: 01692 400 635.

**Forbes Solicitors****D6**<https://www.forbessolicitors.co.uk/>

At Forbes, we promise you will feel different about the law. With us, it's more personal. More straightforward. More of what you really want from a solicitor. Clear and actionable advice you can rely on; empowered, supported and informed every step of the way. That's the 'more' you'll get from Forbes. We have specialists in most aspects of the law. Our dedicated experts go above and beyond to ensure you receive the best possible service and attention. Our friendly, inclusive approach builds confidence, so you feel supported and reassured. Our team features prominently in the top legal directories and has Investors in People recognition, demonstrating excellence in both client service and staff development.

**Hawk and Heath****E2**<https://www.hawkandheath.co.uk>

Hawk and Heath | Evidence-Based, Nature-Led Wellbeing

Hawk and Heath helps individuals and organisations build resilience by reconnecting modern life with what the human body evolved to expect: nature, movement and balanced living.

We translate cutting-edge scientific research into practical, sustainable habits that improve wellbeing, productivity and long-term health across individuals, teams and whole organisations. The NHS recommends 2 hours a week in Nature. We show you exactly what to do in those 2 hours to gain the greatest impact on your long term health and wellbeing.

**General Survey****B10**<https://roofinspectionservices.co.uk/>

General Survey Ltd is a specialist fixed-cost roofing contractor based in Scunthorpe, providing guaranteed standards of roofing to both corporate and public sector clients in the industrial and commercial building sector.

**HC Slingsby****E65**<https://www.slingsby.com/>

- \* Ongoing Consultancy & Retained Services

**Keypoint****D58**

<https://www.keypoint-uk.co.uk/>

Keypoint is a leading European specialist in industrial gloves and protective footwear. As exclusive partner to ATG®, SW® and Sixton®, Keypoint delivers high-performance PPE through a consultative approach. Its solutions balance protection, comfort and productivity, helping distributors and end users create safer, more efficient industrial workplaces.

**IOM****F58**

<https://www.iom-world.org/>

The IOM helps organisations to create safe environments. Through our authoritative research, a UKAS accredited laboratory and experienced ventilation testers, occupational hygienists and authorising engineers, our mission is to make the world a healthier, safer and sustainable place.

**Keyzo****B28**

<https://www.keyzo.co.uk/>

Keyzo delivers intuitive, cloud-based software that simplifies HR, safety and compliance management. Its platforms combine inductions, training, policy sign-off and certifications into one system, improving visibility and control. Trusted across the safety sector, Keyzo reduces admin, strengthens engagement and helps organisations build safer, more connected workplaces.

**IOSH****E30**

<https://iosh.com/>

The Institution of Occupational Safety and Health (IOSH) is the world's largest professional body for safety and health and the only one with Chartered status. Founded in 1945, IOSH is a registered charity with 50,000 members across 130 countries, working to shape policy, develop skills and create safer, healthier workplaces worldwide.

**Liftroller Ltd****D75**

<https://www.liftrolleruk.com>

Liftroller UK provides material handling systems designed to significantly reduce manual handling risks on construction sites and within buildings. Manual handling remains one of the leading causes of injury in construction. The Liftroller system removes the need for repetitive lifting, carrying and pushing of heavy materials by creating a continuous mechanical transfer route from delivery point to point of use. By replacing physical handling with mechanical movement, Liftroller improves health and safety performance, compliance, and workforce wellbeing, while also supporting productivity and programme efficiency. Liftroller UK provides a nationwide hire service and has been used on major UK projects by leading principal contractors.

**IPAF****D4**

<https://www.ipaf.org>

The International Powered Access Federation (IPAF) is a not-for-profit organisation promoting the safe and effective use of powered access equipment worldwide. Owned by its members in over 80 countries, IPAF influences standards, provides training and delivers safety initiatives. At the show, IPAF will host Recovery and Rescue demonstrations for MEWP users.

**Lighthouse UK****E82**

<https://www.lighthouse.uk.com>

Every day, Lighthouse UK's sign and label printing systems solve common problems. Across sectors and industries, signs and labels help organisations to meet Health & Safety requirements, identify or track assets, and educate, protect or inform individuals.

**JLG Industries****F19**

<https://www.jlg.com/en-gb>
